Safety Instruction Guide for QUARTER TANK QUARTER BLUING TANK

Introduction

Thank you for choosing the QUARTER TANK QUARTER BLUING TANK. This product is designed for the safe and effective bluing of handgun components using NitreBlue Bluing Salts or Oxynate solutions. To ensure your safety and the proper use of this product, please read and follow all instructions and guidelines outlined in this document.

General Safety Guidelines

- Always handle the bluing tank with care to avoid injury.
- Ensure the tank is placed on a stable and flat surface to prevent spills and accidents.
- Keep the tank out of reach of children and pets.
- Use personal protective equipment (PPE) such as gloves and goggles when handling bluing solutions.
- Store all chemicals in their original containers and label them clearly.
- Do not mix different chemicals unless specified in the instructions.
- Be aware of the potential hazards associated with the chemicals used in the bluing process.

Specific Safety Precautions for Use

- Ensure adequate ventilation when using the bluing tank to avoid inhaling fumes.
- Do not use the tank for any purpose other than its intended use (bluing handgun components).
- Avoid skin contact with bluing solutions; rinse immediately with water if contact occurs.
- In case of eye contact, flush eyes with water for at least 15 minutes and seek medical attention.
- Do not ingest any chemicals or solutions used in the bluing process.
- Dispose of used solutions and chemicals in accordance with local regulations.

Instructions for Installation and Usage

1. Setting Up the Tank

- Unpack the QUARTER TANK QUARTER BLUING TANK carefully.
- Place the tank on a stable, flat surface away from flammable materials.
- Ensure the tank is clean and free from any debris.

2. Preparing the Bluing Solution

- Measure the appropriate amount of NitreBlue Bluing Salts or Oxynate solution as per the manufacturer's instructions.
- Pour the solution into the tank, ensuring not to exceed the 1gallon capacity.

3. Using the Tank

- Submerge the handgun components into the bluing solution, ensuring that they are fully covered.
- Follow the recommended timing for immersion based on the specific bluing solution used.
- Remove the components carefully and allow them to dry in a wellventilated area.

4. Cleaning After Use

- After completing the bluing process, dispose of the used solution according to local regulations.
- Clean the tank thoroughly with water and a mild detergent, then rinse and dry completely.

Disposal Instructions

- Dispose of any unused or expired chemicals in accordance with local hazardous waste disposal regulations.
- Do not pour chemicals down the drain or into the environment.
- Check with local authorities for specific disposal guidelines in your area.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the QUARTER TANK QUARTER BLUING TANK, please reach out to your local distributor or the manufacturer directly.

By following these safety instructions, you can ensure a safe and effective experience with your QUARTER TANK QUARTER BLUING TANK. Thank you for your attention to safety.
