## Avoid Costly Mistakes, Misunderstandings, Mad Customers

Nothing reinforces the professionalism of your gunsmithing business like the use of a well-designed claim check. Our CC-1 single-stub checks have plenty of space for detailed information about the work to be performed, the parts required, the firearm's condition, plus make, model, serial number, owner's address, and much more. You'll be able to record a complete record of the job, and provide your customer with a perforated stub to prevent wrongful claiming of a completed repair job. Bottom stub is left blank on the back so you can stamp it with your shop's address or logo.
