

# AR-15 30RD PMAG GEN M2 MOE WINDOW MAGAZINE 223/5.56 - PMAG GEN M2 MOE W/WINDOW 5.56MM 30RD FOR AR-15 BLK 10/PACK

## Dependable & Nearly Indestructible; Store Fully Loaded Without Loss Of Reliability

Exceptionally rugged, combat- and competition-ready magazine functions flawlessly, even when left fully loaded for extended periods. Corrosion-proof, self-lubricating one-piece body of fiber-reinforced, molded polymer has no spot welds or joints to impair the follower, and the constant internal curve ensures smooth, unobstructed movement of the round stack. Anti-tilt follower stabilizes the stack to help prevent nose-diving and bolt-over-head failures. Heat-treated, stainless steel spring is stress-relieved for optimal performance. Withstands the heat from prolonged full-auto fire and is not harmed by most bore cleaners and solvents. Exterior ribbing provides added gripping surface; magazine catch notch, rather than a traditional hole, keeps dirt and debris out. Easy-to-grasp ledge on floorplate aids in extracting magazine from pouches; floorplate removes easily for cleaning. Curved-body 30-Round model in MagLevel configuration with windows on both sides of the magazine and a bright, orange indicator to display ammo level. All models available in Black.
