

SHOTGUN WADS - REMINGTON 12 GAUGE TGT12S 1OZ 500/BAG

[Reloading](#) > [Wads](#)

Remington's one-piece shot cup/wad columns are made from highgrade virgin plastic to deliver consistent performance with minimal fouling. Remington offers a complete line of wads for both target and hunting loads .410 bore through 10-gauge magnum. Stitched-petal design helps keep wads from snagging on each other for easier reloading. Not for use with Steel Shot.

Safety Instruction Guide for SHOTGUN WADS REMINGTON 12 GAUGE TGT12S

Introduction

Thank you for choosing Remington SHOTGUN WADS TGT12S. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before using the wads to avoid any potential hazards and to comply with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle ammunition and reloading components with care.
- Keep wads out of reach of children and unauthorized individuals.
- Use only in firearms approved for 12 gauge ammunition.
- Avoid using with steel shot to prevent damage to your firearm and ensure safety.
- Regularly check for any signs of wear or damage to the wads before use.
- Store wads in a cool, dry place away from direct sunlight and moisture.
- Follow all local laws and regulations regarding the use and storage of ammunition and reloading components.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before reloading.
- Wear appropriate eye and ear protection when reloading and shooting.
- Do not exceed recommended load specifications when using wads.
- Avoid reloading in areas with flammable materials or in confined spaces.
- Do not use damaged or deformed wads, as they may cause malfunctions.
- Always ensure proper ventilation when reloading to avoid inhalation of harmful substances.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials including the Remington wads, shotgun shells, powder, and shot.
- Ensure your work area is clean and free from distractions.

2. Loading the Wad:

- Open the shotgun shell and pour the appropriate amount of powder into the shell casing.
- Carefully insert the Remington wad into the shell casing, ensuring it is seated properly.
- Add the desired amount of shot on top of the wad, following recommended load specifications.

3. Crimping the Shell:

- Use a proper crimping tool to seal the shotgun shell.
- Ensure the crimp is tight and secure to prevent any powder or shot from spilling out.

4. Final Checks:

- Inspect the loaded shell for any irregularities or damage.
- Store the completed shells in a safe and secure location until ready for use.

Disposal Instructions

- Dispose of any unused or damaged wads in accordance with local waste disposal regulations.
- Do not dispose of wads in fire or near heat sources.
- Consider contacting local recycling programs that may accept plastic materials.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of Remington SHOTGUN WADS TGT12S, please refer to your local Remington dealer or visit the Remington website for more information.

Thank you for your commitment to safety and responsible use of our products.
