TLR Remote Switch Safety Instruction Guide

Introduction

Thank you for choosing the TLR Remote Switch. This product is designed to enhance the functionality of your TLR1 and TLR2 lights. Please read this safety instruction guide carefully to ensure safe and effective use of the product. Following these guidelines will help prevent accidents and ensure optimal performance.

General Safety Guidelines

- Ensure that the TLR Remote Switch is used only with the compatible TLR Battery Door/Switch Assembly (100008462).
- Always check for any visible damage to the product before use. Do not use if damaged.
- Keep the remote switch out of reach of children and vulnerable individuals to prevent unintended use.
- Use the product in accordance with the manufacturer's instructions to minimize risks associated with improper use.
- Regularly inspect the tethered rubber weather cap to ensure it is functioning properly and keeping the connector dry when not in use.
- Report any unsafe product incidents or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not expose the TLR Remote Switch to extreme temperatures, moisture, or corrosive substances.
- Avoid using the remote switch while driving or operating heavy machinery.
- When using the remote switch, ensure that your hands are dry to maintain a secure grip and prevent slipping.
- Be aware of your surroundings when using the remote switch to avoid accidents or injuries.
- Do not force the rotating quick disconnect plug; ensure it is properly aligned before connecting or disconnecting.
- If the product malfunctions or does not operate as expected, discontinue use immediately and seek assistance.

Instructions for Installation and Usage

1. Installation

- Remove the standard battery door/switch from your existing TLR1 or TLR2 light.
- Replace it with the TLR Battery Door/Switch Assembly (100008462) following the manufacturer's instructions.
- Ensure all connections are secure and properly aligned.

2. Using the TLR Remote Switch

- Connect the TLR Remote Switch to the installed battery door/switch assembly.
- Confirm that the tethered rubber weather cap is securely in place when the remote is not in use to keep the connector dry.
- To operate the light, press the momentary switch for temporary activation or engage the lockon function for continuous use.
- If you need to disconnect the remote switch, gently rotate the quick disconnect plug to release it without applying excessive force.

Disposal Instructions

- Dispose of the TLR Remote Switch and any associated components in accordance with local regulations for electronic waste.
- Do not dispose of the product in regular household waste.
- Consider recycling options to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the TLR Remote Switch, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and efficient experience with your TLR Remote Switch. Thank you for your attention to these important guidelines.
