

PMAG® 7.62 AC 308 WINCHESTER MAGAZINE FOR AICS SHORT ACTION - MAGPUL PMAG 5 7.62 AC 308 WINCHESTER 5RD FOR AICS SA BLK 3/PACK

[Magazines](#) > [Rifle Magazines](#) > [Magazines](#)

The PMAG 5 7.62 AC and PMAG 10 7.62 AC are a reliable and durable polymer magazine for .308 Winchester-based family of cartridges and is compatible with short action AICS-spec bottom metal, to include the Bolt Action Magazine Well for the Hunter 700 Stock. Compatible with short action AICS-spec bottom metal, to include the Bolt Action Magazine Well for the Hunter 700 Stock, the PMAG 5 and 10 7.62 AC magazines bring additional capacity in an affordable and reliable package. Featuring GEN M3® technology, a paint-pen dot matrix for visual identification, and a flared base plate for positive control and ease of retrieval, the PMAG 10 7.62 AC sets a new standard for bolt action magazines.

FEATURES RUGGED POLYMER BODY WITH AN IMPROVED FLOORPLATE Next-generation impact and crush-resistant polymer construction Flared and removable floorplate aids magazine handling and is easy to disassemble for maintenance ADVANCED FOLLOWER Self-lubricating follower for increased reliability Modifiable follower leg can be easily clipped to increase the capacity by one extra cartridge Includes a long-life stainless steel spring EASY

IDENTIFICATION Utilize the paint pen dot matrix to easily identify magazines with different loadouts

Made in the USA. SPECS Caliber: 7.62x51mm / .308

Winchester Capacity: 5 or 10 Round depending on magazine Compatibility

Compatible with short action AICS (Accuracy International Chassis Systems)

pattern bottom metal and cartridges built on a 0.470" case head such as

7.62x51/.308 Winchester, 7mm-08 Remington, 6.5mm Creedmoor, .260

Remington, .243 Winchester, and others* *PLEASE NOTE: Not compatible with

smaller base diameter cartridges such as .220 Swift, .223 Remington, .300

AAC Blackout, etc. or larger short action magnums. In addition, due to the

wide variety and potential combinations of aftermarket receivers, stocks,

chassis, and bottom metal that accept AICS pattern mags, minor fitting may

be required. Not compatible with Accuracy International AE rifles or semi-auto

platforms utilizing SR25/M110 pattern magazines. The Sig Cross rifles ship

with a Magpul PMAG 5 7.62 AC that has a proprietary sled follower for

optimized single-round loading through the ejection port. The standard PMAG

5 7.62 AC (MAG549) and PMAG 5 7.62 AC (MAG579) are compatible with the

Sig Cross, and feeding performance will be the same from the Sig Cross OEM

Magpul magazine or the standard Magpul PMAG 7.62 AC magazines. The

original PMAG 5 7.62 AC magazine, identified by its green lock plate and

follower, was optimized for the .308 Winchester based family of cartridges and

is compatible with short action AICS-spec bottom metal, to include the Bolt

Action Magazine Well for the Hunter 700 Stock, and performed well with most

non-.308 based cartridges in nearly all applications. Some three lug bolt action

rifle platforms, such as the Ruger American Rifle®, presented some occasional

feeding concerns when used with the standard green follower PMAG 5 7.62 AC

magazine. Magpul have made an inline change to a new design of spring and

follower. The revised PMAG 5 7.62 AC magazine, easily identified with its

brown lock plate and follower, has been optimized to ensure complete Magpul

reliability with a broad range of calibers in the Ruger American Rifle® and

other 3-lug bolt designs, while maintaining or improving the proven Magpul

reliability in Remington® 700 footprint platforms and other 2-lug bolt action

designs. For the Hunter American stock, Magpul recommend using only the

new, brown follower magazines, in calibers like 6.5 Creedmoor. All other

actions, and the Ruger in .308, can use either version interchangeably.

The PMAG 5 7.62 AC and PMAG 10 7.62 AC are a reliable and durable polymer magazine for .308 Winchester-based family of cartridges and is compatible with short action AICS-spec bottom metal, to include the Bolt Action Magazine Well for the Hunter 700 Stock. Compatible with short action AICS-spec bottom metal, to include the Bolt Action Magazine Well for the Hunter 700 Stock, the PMAG 5 and 10 7.62 AC magazines bring additional capacity in an affordable and reliable package. Featuring GEN M3® technology, a paint-pen dot matrix for visual identification, and a flared base plate for positive control and ease of retrieval, the PMAG 10 7.62 AC sets a new standard for bolt action magazines.

Safety Instruction Guide for PMAG® 7.62 AC 308 Winchester Magazine

Introduction

Thank you for choosing the PMAG® 7.62 AC 308 Winchester Magazine. This guide provides important safety information and instructions to ensure the safe use and handling of your magazine. Following these guidelines will help protect you and others from potential hazards associated with the use of this product.

General Safety Guidelines

- Ensure the magazine is compatible with your firearm before use.
- Always handle firearms and ammunition responsibly and in accordance with local laws and regulations.
- Keep the magazine out of reach of children and unauthorized users.
- Inspect the magazine regularly for signs of wear or damage.
- Do not modify the magazine in any way that could compromise its safety or functionality.
- Store the magazine in a cool, dry place away from direct sunlight and moisture.
- Report any unsafe product experiences to the appropriate authorities.

Specific Safety Precautions for Use

- **Compatibility:** Ensure your firearm is compatible with AICS (Accuracy International Chassis Systems) pattern bottom metal and the specified cartridges.
- **Age Restrictions:** This product is intended for adult use only. Keep away from children.
- **Loading and Unloading:** Always ensure the firearm is pointed in a safe direction when loading or unloading the magazine.
- **Inspection:** Before each use, inspect the magazine for any signs of damage, such as cracks or deformities. Do not use a damaged magazine.
- **Cleaning:** Clean the magazine regularly to maintain optimal performance. Follow the cleaning instructions provided in this guide.

Instructions for Installation and Usage

1. Loading the Magazine:

- Ensure the magazine is empty before loading.
- Use the selflubricating follower for smooth loading.
- Load the magazine with the appropriate cartridges, ensuring they are seated properly.
- For increased capacity, modify the follower leg as per the instructions.

2. Installing the Magazine:

- Align the magazine with the magazine well of your firearm.
- Push the magazine firmly into place until it clicks securely.
- Verify that the magazine is seated correctly before use.

3. Using the Magazine:

- Always keep the firearm pointed in a safe direction.
- Engage the safety mechanism of your firearm before handling.
- Follow all manufacturer instructions for your specific firearm model.

4. Unloading the Magazine:

- Point the firearm in a safe direction.
- Remove the magazine from the firearm.
- Carefully unload the cartridges, ensuring they are handled safely.

Disposal Instructions

- Dispose of the magazine according to local regulations.
- If the magazine is damaged beyond repair, ensure it is disposed of in a manner that prevents unauthorized use.
- Recycle any plastic components where possible, following local recycling guidelines.

Contact Information for Further Support

For any questions or concerns regarding the PMAG® 7.62 AC 308 Winchester Magazine, please refer to the manufacturer's website or customer service for assistance.

Conclusion

By following these safety guidelines and instructions, you can ensure the safe and effective use of your PMAG® 7.62 AC 308 Winchester Magazine. Always prioritize safety and responsible handling to protect yourself and others. Thank you for your attention to these important guidelines.
