## Quickly & Easily Unload Mil-Spec Mags

The Mag-Pump Magdump lets you quickly unload your mil-spec AR-15 mags - without the sore thumb. The BEST way to empty a mag is to put it in the rifle and send the rounds downrange. But when you can't empty a mag the good way, simply insert it into the Mag-Pump Magdump and it will empty the magazine as fast as you can cycle the handle. Ejects cartridges one at a time. Reduces potential for magazine spring failure caused by fully loaded mag sitting for long periods of time. Sturdy, lightweight polymer construction. With a Mag-Pump Magdump you can unload a full 30-rd mag in a few seconds, prolonging the life of mag springs and feed lips.
