

AR-15 HIPERTOUCHE® SERIES TRIGGER ASSEMBLIES - HIPERFIRE

AR-15/10 HIPERTOUCHE REFLEX TRIGGER ASSEMBLY

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

Breathtakingly Smooth, Light Pull With Plenty of Hammer Oomph

Hiperfire's revamped Hipertouch® trigger line gives the AR-15 shooter an impressive array of options in a single-stage trigger with shorter pre-travel, faster reset, and increased hammer energy than the standard G.I.-type trigger. Dual coil springs across the top of the Hiperfire® trigger reduce friction on the sear and increase hammer striking power by 35% over a "mil-spec" trigger, while a pair of interchangeable color-coded springs let you choose between a 2.5 lb. or 3.5 lb. pull weight. Of course, all the Hipertouch® models give your AR-15 a smooth, consistent pull with just a hint of creep, a snappy break, and a very short over-travel, followed by fast reset so you're ready to take the next shot. A Hipertouch® trigger in your AR-15 will help you improve your shot timing, control, and confidence for more accurate hits on the target. The Hipertouch's consistent pull doesn't signal hammer release like some triggers, so the shooter doesn't develop a flinch in anticipation of the rifle firing. The shooter can stay relaxed and doesn't build tension in the trigger finger. All of this adds up to better control over the gun, better shot timing, improved confidence and more accurate shooting. Consistent single-stage pull with a just a hint of "creep" 2 interchangeable hammer springs provide 2 pull weigh options - 2.5 lb. or 3.5 lb. NO fussy setscrews that can back out or otherwise lose your settings Unusually fast locktime Hard, positive hammer strikes without compromising pull weight Fits small-pin (.153") AR-15 lower receivers & AR 308 rifles that use AR-15 triggers 6 models to choose from - read on... Genesis is the Hipertouch® base model, an excellent upgrade for law enforcement, military, service rifle competition shooters, and personal defense. Auto offers same functionality as Genesis for select-fire full-auto M16 / M4-type rifles. Built like the proverbial tank to handle the punishment of fast-cycling operation. Elite is a match-quality trigger that breaks quickly, after even shorter pre-travel than the Genesis, with very quick, positive reset. Letoff is extremely easy to control. Competition is ideal for competitive shooters who want the bare minimum of pre-travel and a straight trigger shoe. The adjustable finger pad gives you even more refined control. It can be set at five different positions for further refinement of pre-travel and trigger weight. Position the shoe farther down the bow to increase leverage and effectively reduce pull weight. The result is effectively 10 pull weight options rather than two. Or leave the pad off and enjoy the enhanced tactile control of a straight trigger. Reflex is similar to Competition but with a traditional curved trigger shoe - same trigger pull with virtually no creep. Excellent for Designated Marksman rifles, LE use, and 3-gun competition. Eclipse is the ultimate Hipertouch® trigger, with all the upgrades of the Competition model, including straight shoe and adjustable finger pad plus Hiperfire's Nickel Bliss electroless Nickel Boron (NiB) finish on all contact surfaces for enhanced corrosion protection and, more importantly, an EVEN SMOOTHER feel than its Hipertouch® siblings. This pull is so smooth, clean, and consistent you'll think the laws of physics have been broken. They haven't.

Attributes

- Name: [HIPERFIRE AR-15/10 HIPERTOUCHEX REFLEX TRIGGER ASSEMBLY](#)
- Manufacturer: [HIPERFIRE](#)
- Product no.: 100029414
- Mfr. No.: HPTR
- Style: Single-Stage
- Weapon type: AR-15
- Delivery weight: 0.129kg
- Shipping height: 25mm
- Shipping width: 102mm
- Shipping length: 178mm
- UPC: 859177004331

Safety Instruction Guide for AR15 HIPERTOUCHE[®] SERIES TRIGGER ASSEMBLIES

Introduction

Thank you for choosing the AR15 HIPERTOUCHE[®] SERIES TRIGGER ASSEMBLIES by HIPERFIRE. This guide provides important safety instructions to ensure the safe use and installation of your trigger assembly. Please read this guide carefully before use to familiarize yourself with the safety precautions and operational guidelines.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the trigger assembly in accordance with all applicable laws and regulations.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to your product.
- **Online Shopping:** If purchased online, ensure that the platform meets safety requirements.
- **Special Consumer Focus:** Extra precautions should be taken if the product is used by vulnerable groups.
- **EU Contact Point:** For any safety inquiries, refer to the designated EU contact point.
- **Rapid Alerts:** Check the EU's Safety Gate platform for updates on unsafe products.

Specific Safety Precautions for Use

- Always handle firearms and their components with care and respect.
- Ensure the firearm is unloaded before installation or maintenance.
- Wear appropriate safety gear, including eye protection, when handling firearms.
- Avoid using the trigger assembly if you are unfamiliar with its operation.
- Do not modify the trigger assembly in any way that could compromise its safety or performance.
- Keep the trigger assembly out of reach of children and unauthorized users.
- Regularly inspect the trigger assembly for wear and damage; replace if necessary.
- Be aware of your surroundings when using the firearm to avoid accidents.

Instructions for Installation and Usage

Installation

1. Preparation:

- Ensure the firearm is unloaded.
- Gather necessary tools for installation.

2. Remove the Existing Trigger:

- Disassemble the firearm according to the manufacturer's instructions.
- Remove the existing trigger assembly carefully.

3. Install the HIPERTOUCHE[®] Trigger Assembly:

- Align the new trigger assembly with the lower receiver.
- Follow the manufacturer's instructions to secure the trigger in place.

4. Adjust Settings:

- If applicable, adjust the pull weight using the interchangeable hammer springs provided.
- Ensure all components are secure and functioning properly.

5. Reassemble the Firearm:

- Reassemble the firearm according to the manufacturer's instructions.
- Perform a function check to ensure proper operation.

Usage

- Practice safe handling and shooting techniques at all times.
- Ensure you are in a safe environment when operating the firearm.
- Always be aware of the target and what lies beyond it.

Disposal Instructions

- Dispose of the trigger assembly in accordance with local regulations.
- Do not dispose of the trigger assembly in regular household waste.
- Contact local authorities for proper disposal methods for firearm components.

Contact Information for Further Support

For any questions or concerns regarding the AR15 HIPERTOUCHE® SERIES TRIGGER ASSEMBLIES, please refer to the designated EU contact point for assistance.

By following these safety instructions, you can ensure the safe and effective use of your AR15 HIPERTOUCHE® SERIES TRIGGER ASSEMBLIES. Thank you for prioritizing safety in your shooting experience.
