

CUSTOM GRADE STANDARD SEATING DIES - CUSTOM GRADE 300 AAC BLACKOUT BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Hornady's Custom Grade New Dimension dies are created from select steel that's heat-treated to ensure the durability needed for a lifetime of reloading. Hornady guarantees they'll never wear out or break under normal use. All dies include the popular double-flat Hornady die lock rings installed and a custom plastic box. Hornady dies are grouped in three series for pricing - die construction and quality is equal in each series. Custom Grade Seater dies include a sliding alignment sleeve which holds the bullet, case mouth, and seater stem in alignment before the bullet enters the case mouth. Seater dies include a built-in crimp ring which can be used or raised for no crimp. All dies come with the popular double-flat Hornady die lock rings installed and a custom plastic die box.

CUSTOM GRADE STANDARD SEATING DIES Safety Instruction Guide

Introduction

Thank you for choosing the CUSTOM GRADE 300 AAC BLACKOUT BULLET SEATING DIE by Hornady. This guide provides essential safety instructions to ensure the safe use, installation, and disposal of this product. Please read this guide carefully before use and follow all instructions to minimize risks.

General Safety Guidelines

- Ensure safe use of the die by following all instructions provided.
- Be aware of potential hazards associated with reloading ammunition.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for product recalls and safety updates on the EU's Safety Gate platform.
- Report any unsafe product conditions or accidents to local authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear such as safety glasses and gloves when handling reloading equipment.
- Use the die only for its intended purpose as specified in the product documentation.
- Inspect the die for damage before each use. Do not use a damaged die.
- Ensure that the workspace is clean and free from clutter to avoid accidents.
- Keep all components, including bullets and cases, stored safely when not in use.
- Do not exceed the recommended load specifications for the 300 AAC Blackout cartridge.

Instructions for Installation and Usage

Installation

1. Prepare the Workspace:

- Ensure the area is welllit and free from distractions.
- Gather all necessary tools and materials.

2. Mount the Die:

- Securely mount the seating die into the reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to avoid movement during use.

3. Adjust the Die:

- Adjust the seating depth according to your reloading specifications.
- Use the sliding alignment sleeve to hold the bullet and case mouth in place.

Usage

1. Loading Process:

- Place a clean, inspected case into the press.
- Insert the bullet into the case mouth, ensuring proper alignment.

- Operate the press to seat the bullet into the case.

2. Crimping:

- If desired, adjust the builtin crimp ring to apply crimp or raise it for no crimp.
- Test the crimp on a sample round to ensure proper performance.

3. Final Inspection:

- Inspect the completed round for any defects or issues.
- Store completed rounds in a safe and secure container.

Disposal Instructions

- Dispose of any spent components, such as empty cases and damaged dies, in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Consult local authorities for proper disposal methods of hazardous materials.

Contact Information for Further Support

For any safety inquiries or support regarding the CUSTOM GRADE 300 AAC BLACKOUT BULLET SEATING DIE, please refer to the contact details provided on the product packaging or the manufacturer's website.

By following these safety instructions, you can ensure a safe and efficient reloading experience. Thank you for choosing Hornady products. Stay safe!
