Safety Instruction Guide for Taper Crimp Handgun Dies 380 Auto, 9mm Luger Crimp Die

Introduction

Thank you for choosing the Hornady Taper Crimp Die for your reloading needs. This guide is designed to provide you with essential safety information, usage instructions, and disposal guidelines to ensure safe and effective use of the product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the die and all reloading components out of reach of children and vulnerable individuals.
- Regularly check for any wear or damage to the die before use.
- Use personal protective equipment, such as safety glasses and gloves, when handling reloading materials.
- Be aware of your surroundings and ensure that you are in a safe environment when reloading ammunition.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure that your work area is clean and organized to prevent accidents.
- Do not use the die for any purpose other than its intended use.
- Avoid using the die if you are under the influence of drugs or alcohol.
- Ensure that the die is securely installed on the reloading press before use.
- Do not exceed the recommended load specifications for the cartridge you are reloading.
- Be cautious when handling primers and powder, as they can be hazardous if not managed properly.

Instructions for Installation and Usage

Installation

1. **Prepare Your Work Area:** Ensure that your reloading bench is clean and free from clutter.
2. **Secure the Die:**
 - Remove the die from its packaging.
 - Thread the die into the reloading press until it is snug.
 - Tighten the lock ring to secure the die in place.
3. **Set the Die Height:**
 - Adjust the die height to achieve the desired crimp on the case mouth.
 - Use a test case to check the crimp before proceeding with reloading.

Usage

1. **Inspect Cases:** Before reloading, inspect each case for damage or wear.
2. **Insert Bullets:** Place the bullet into the case mouth.
3. **Crimping Process:**
 - Operate the reloading press to raise the ram and bring the case into contact with the die.
 - The die will remove the flare and crimp the case mouth around the bullet.
4. **Check Headspace:** After crimping, ensure that the headspace is correct for reliable feeding in your firearm.
5. **Store Properly:** After use, clean the die and store it in a safe, dry place.

Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Never dispose of reloading materials in regular household waste.
- Consult your local waste management authority for proper disposal methods for hazardous materials.

Contact Information for Further Support
