

ZIP SPINDLE KIT FOR 17 & 20 CALIBERS

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

The Hornady Zip Spindle Kit is the ideal kit for updating your older Hornady Sizing dies to utilize the new threaded spindle design. The Zip Spindle has a series of light threads cut on the spindle and collet. This eliminates spindle slippage, and makes tightening the spindle lock a breeze when making adjustments. This kit includes a new threaded spindle (decapping rod) and a threaded spindle collet (portion of the kit that tightens the threaded spindle so it will not slip in the die). This kit does not include a decapping pin retainer or expander ball. Reloaders must use the decapping pin retainer and expander ball that is on their die set. Technical Information Fits: Any Caliber Hornady New Dimension Sizer Dies Function: Converts older dies to the new Zip Spindle design Material: Steel Notes: Kit consists of a threaded spindle and threaded spindle collet. This kit does not include the decapping pin retainer or expander ball. To install, remove the non-threaded spindle, collet, and expander ball from the existing die. Re-attach the existing expander ball to the new spindle, and install the threaded spindle and threaded collet. If the spindle on the expander die is already threaded, then this kit is not necessary. All die sets shipped in 2006 and later are the new threaded style. 17 and 20 caliber dies use a separate Zip Spindle Kit

Attributes

- Name: [ZIP SPINDLE KIT FOR 17 & 20 CALIBERS](#)

ZIP SPINDLE KIT Safety Instruction Guide

Introduction

Thank you for choosing the Hornady Zip Spindle Kit. This guide provides essential safety instructions and information to ensure the safe and effective use of the product. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- Do not use the product if it is damaged or malfunctioning.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Only use the Zip Spindle Kit with Hornady New Dimension Sizer Dies.
- Ensure that the spindle and collet are securely tightened before each use to prevent slippage.
- Avoid overtightening the spindle lock, as this may cause damage to the equipment.
- Do not attempt to modify or alter the Zip Spindle Kit in any way.
- Be cautious of sharp edges when handling the threaded spindle and collet.
- Always follow safe reloading practices as outlined in your die set instructions.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and ensure a clean workspace.
- Review the instructions to ensure you understand the installation process.

2. Installation

- Remove the existing nonthreaded spindle, collet, and expander ball from your die.
- Attach the existing expander ball to the new threaded spindle.
- Install the threaded spindle into the die.
- Secure the threaded spindle with the threaded collet, ensuring it is tightened properly to prevent slippage.

3. Usage

- After installation, check that the spindle is secure before starting any reloading operations.
- Follow the manufacturer's guidelines for operating the Hornady New Dimension Sizer Dies.
- Make adjustments as needed, ensuring the spindle lock is tightened securely each time.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer in use, consider recycling the metal components where possible.

Contact Information for Further Support

For questions or concerns regarding the Hornady Zip Spindle Kit, please refer to the manufacturer's website or contact their customer support service for assistance.

Thank you for your attention to these safety instructions. Proper use and maintenance of the Zip Spindle Kit will ensure a safe and effective reloading experience.
