# SHOTGUN CLEANING KIT WITH ALUMINUM CLEANING ROD SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Outers Shotgun Cleaning Kit with Aluminum Cleaning Rod. This kit is designed to help you maintain your shotgun safely and effectively. Please read this safety instruction guide carefully to ensure proper use and to maximize safety while handling your cleaning kit.

## General Safety Guidelines

- Always handle firearms with care and ensure they are unloaded before cleaning.
- Keep cleaning supplies out of reach of children and pets.
- Use the cleaning kit in a well-ventilated area to avoid inhalation of fumes from solvents and cleaners.
- Do not mix different cleaning solvents or oils, as this may create hazardous reactions.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

## Specific Safety Precautions for Use

- **Lightweight Cleaning Rod:**
  - Inspect the cleaning rod for any damage before use. A damaged rod can break during use and potentially cause injury.
- **Phosphor Bronze Bore Brush:**
  - Use the bore brush gently to avoid damaging the barrel. Excessive force can scratch or damage the interior.
- **Slotted Patch Loop:**
  - Ensure that the patch is securely attached to prevent it from getting stuck in the barrel.
- **Rod Adaptor:**
  - Only use the rod adaptor with compatible cleaning rods and brushes to prevent accidents.
- **Microfiber Absorbent Patches:**
  - Dispose of used patches properly. Do not reuse them as they may contain harmful residues.
- **Nitro Solvent Gun Cleaner and Gun Oil:**
  - Use gloves when handling solvents and oils to avoid skin irritation.
  - Avoid contact with eyes. If contact occurs, rinse immediately with plenty of water and seek medical attention if irritation persists.

## Instructions for Installation and Usage

1. **Preparation:**
  - Ensure the shotgun is unloaded and pointed in a safe direction.
  - Gather all cleaning supplies from the kit.
2. **Assembling the Cleaning Rod:**
  - Attach the lightweight cleaning rod to the rod adaptor.
  - Ensure the connection is secure before proceeding.
3. **Using the Bore Brush:**
  - Attach the phosphor bronze bore brush to the end of the cleaning rod.
  - Insert the brush into the barrel and gently push it through from the chamber to the muzzle.
  - Repeat this step a few times to thoroughly clean the bore.
4. **Using the Slotted Patch Loop:**
  - Insert a microfiber absorbent patch into the slotted patch loop.
  - Apply a small amount of nitro solvent gun cleaner onto the patch.
  - Insert the patch into the barrel and pull it through to remove any remaining debris.
5. **Applying Gun Oil:**

- After cleaning, apply a few drops of gun oil to a clean patch.
- Run the oiled patch through the barrel to protect it from corrosion.

**6. Final Steps:**

- Clean any remaining tools and store them safely.
- Ensure all cleaning supplies are stored out of reach of children.

## **Disposal Instructions**

- Dispose of used cleaning patches, gloves, and any other disposable materials in accordance with local waste disposal regulations.
- Do not pour solvents or oils down the drain. Check local guidelines for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and usage of the Outers Shotgun Cleaning Kit, please consult the product manual or reach out to the manufacturer's customer service for assistance.
