A Cleaning Mat Designed to Aid in Handgun Disassembly

TekMat revolutionized the firearm-cleaning market with its line of cleaning mats that were more than just protective work surfaces. These cleaning mats included diagrams and schematics of today's popular firearms, allowing users to get an inside look at their gun and easily disassemble and reassemble firearms. The company's new Ultra 20 Pistol Cleaning Mat continues this legacy with a few improved elements. Each TekMat Ultra 20 Pistol Cleaning Mat is constructed using a clear dye-sublimation printing technique that makes the mat waterproof, scratchproof, oil- and chemical-resistant and washable. The company's direct-vulcanization technique adheres the mat's surface to a rubber backing, which provides padding and durability. The complete line of TekMat Ultra 20 Pistol Cleaning Mats includes a parts list that matches the manufacturer's list of parts, so there's no chance of confusion, and you'll always know what part goes where and which parts you might need to order to repair or complete your firearm. This line of pistol mats is available for the 1911, Beretta 92, Glock Gen 4, SIG Sauer P238 and P320 and the Springfield XD line.
