# PACESETTER RIFLE THREEDIE SET Safety Instruction Guide

## Introduction

Thank you for choosing the PACESETTER RIFLE THREEDIE SET by LEE PRECISION. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading equipment. Please read this document carefully before using the product.

## General Safety Guidelines

- Always prioritize safety when handling and using reloading equipment.
- Ensure that your workspace is clean, organized, and welllit.
- Store all reloading components, including powder and primers, in a secure location away from children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Familiarize yourself with the specific safety features and requirements of your reloading press.
- Follow all local laws and regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- Ensure that the reloading press is securely mounted and stable before use.
- Do not exceed the recommended load data for any cartridge.
- Always doublecheck measurements and components before beginning the reloading process.
- Avoid distractions while reloading; focus on the task at hand.
- Do not use damaged or worn tools; replace them immediately.
- Be aware of the hazards associated with handling gunpowder and primers, including flammability and potential health risks.
- Keep a fire extinguisher rated for chemical fires nearby when reloading.

## Instructions for Installation and Usage

### 1. Installation of the Die Set:

- Unpack the PACESETTER 3DIE SET and ensure all components are included: Full Length Sizing Die, Bullet Seating Die, Factory Crimp Die, Universal Shell Holder, Powder Dipper, and Instructions/Load Data.
- Follow the specific instructions provided with your reloading press for mounting the dies. Ensure they are tightened securely.

### 2. Using the Dies:

- **Full Length Sizing Die:**
  - Insert the shell casing into the Universal Shell Holder.
  - Place the shell holder in the press and adjust the die to resize the casing to the appropriate specifications.
- **Bullet Seating Die:**
  - After charging the casing with powder, place a bullet on the casing mouth.
  - Adjust the die to seat the bullet to the desired depth according to your load data.
- **Factory Crimp Die:**
  - Use this die to apply a crimp to the bullet, ensuring it is securely seated in the casing.
  - Adjust the crimp depth as needed based on your load data.

### 3. Cleaning and Maintenance:

- Regularly clean your dies and reloading press to prevent buildup of residue.
- Inspect all components for wear and replace as necessary.

## Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Empty shell casings and other metal components can typically be recycled; check with your local recycling program for guidelines.
- Do not dispose of gunpowder or primers in regular trash. Follow local hazardous waste disposal guidelines.

## Contact Information for Further Support

For any inquiries regarding safety or usage of the PACESETTER RIFLE THREE DIE SET, please refer to the manufacturer's official contact points or website for support and additional resources.

By following these guidelines, you can ensure a safer and more enjoyable reloading experience. Remember to stay informed and always prioritize safety. Happy reloading!
