# Safety Instruction Guide for the RCBS 416 Ruger/416 Remington Magnum Replacement Decapping Assembly

## Introduction

Thank you for choosing the RCBS 416 Ruger/416 Remington Magnum Replacement Decapping Assembly. This product is designed to help you deprime and expand the necks of bottleneck cartridges safely and efficiently. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Always follow the manufacturer's instructions and safety guidelines when using this product.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the product for wear and damage before use. Do not use if any parts are damaged.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Ensure that the workspace is welllit and free from clutter to minimize the risk of accidents.
- Avoid using the decapping assembly if you are tired, distracted, or under the influence of substances that may impair your judgment.
- Never attempt to modify the decapping assembly or use it in a manner not specified by the manufacturer.
- Be cautious of sharp edges and points on the decapping pin and other components.
- Keep your hands and other body parts away from moving parts during operation.

## Instructions for Installation and Usage

### 1. Installation

- Ensure you have all components: decapping pin, expander rod, and ball.
- Follow these steps to install the decapping assembly:
  - Remove the sizing die from your reloading press.
  - Insert the expander rod into the sizing die until it is securely in place.
  - Attach the decapping pin to the expander rod.
  - Reinstall the sizing die into the press, ensuring it is tightened securely.

### 2. Usage

- Prepare your bottleneck cartridge for depriming by ensuring it is clean and free of obstructions.
- Place the cartridge in the shell holder of the reloading press.
- Slowly raise the ram of the press to engage the decapping assembly with the cartridge.
- Apply steady pressure until the primer is removed. Ensure that you maintain control of the press during this process.
- After depriming, lower the ram and remove the cartridge.
- Inspect the decapping pin and assembly for any signs of damage after each use.

## **Disposal Instructions**

- Dispose of used primers and any damaged components in accordance with local regulations regarding hazardous waste.
- Do not dispose of the decapping assembly in general household waste. Check for recycling options specific to metal and plastic components.
- Ensure that all materials are disposed of safely to prevent environmental harm.

## **Contact Information for Further Support**

For any questions or concerns regarding the RCBS 416 Ruger/416 Remington Magnum Replacement Decapping Assembly, please refer to the manufacturer's support resources or your local retailer for assistance.

By following these guidelines, you can ensure a safe and effective experience with your decapping assembly. Thank you for prioritizing safety in your reloading practices.
