

# DEATHGRIP SHERPA TRIPODS - DEATHGRIP SHERPA TRIPOD ARCA SWISS MOUNT BLACK

[Shooting Accessories](#) > [Shooting Rests](#) > [Shooting Rest Accessories](#)

A close cousin to the DeathGrip Infinite series, the DeathGrip Sherpa is the ultimate backcountry tripod. Designed as a multi-functional tripod platform, the DeathGrip Sherpa weighs just over 4 lbs and utilizes a quick-change system on top of a glass-smooth ball head mount, making it perfect for glassing and shooting on the side of a mountain. Couple this with a proprietary hybrid foot, twist-lock legs, the proprietary DeathGrip clamping system, and a removable center post, and the DeathGrip Sherpa provides the most versatile backcountry capability at a fraction of the price of its competitors.

# DEATHGRIP SHERPA TRIPOD Safety Instructions

## Introduction

Thank you for purchasing the DEATHGRIP SHERPA TRIPOD. This tripod is designed for versatility and stability in backcountry environments. To ensure safe usage and maximize the lifespan of your product, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure the tripod is set up on stable and level ground to prevent tipping or accidents.
- Always check the locking mechanisms before use to ensure they are secure.
- Do not exceed the weight limit specified for the tripod to avoid structural failure.
- Keep children and pets away from the tripod while in use to prevent injury.
- Regularly inspect the tripod for wear and damage, especially after extensive use.
- Familiarize yourself with the tripod's features and operation before using it in the field.

## Specific Safety Precautions for Use

- **Weight Limit:** The DEATHGRIP SHERPA TRIPOD is designed to support a maximum load of 15 lbs. Exceeding this limit may cause the tripod to collapse.
- **Footing:** Ensure the tripod's hybrid feet are properly engaged with the ground surface to maintain stability.
- **Weather Conditions:** Avoid using the tripod in extreme weather conditions (high winds, heavy rain) that may compromise its stability and your safety.
- **Camera and Equipment:** Always ensure that your camera or equipment is securely attached to the tripod before adjusting its position.
- **Transporting:** When transporting the tripod, collapse the legs and secure them to prevent accidental opening.

## Instructions for Installation and Usage

### 1. Setup:

- Remove the tripod from its carrying case.
- Extend the legs by loosening the twistlocks and pulling the legs to the desired height. Lock them securely.
- Adjust the center post if needed for additional height.

### 2. Mounting Equipment:

- Use the Arca Swiss mount to attach your camera or equipment.
- Ensure the clamping system is securely tightened to hold the equipment in place.

### 3. Adjusting Position:

- To adjust the angle of the ball head, loosen the ball head knob.
- Position your camera or equipment as desired and retighten the knob to secure it.

### 4. Dismantling:

- When finished, remove your camera or equipment from the tripod.
- Collapse the legs by loosening the twistlocks and folding them back into place.

## Disposal Instructions

- Dispose of the DEATHGRIP SHERPA TRIPOD in accordance with local regulations regarding electronic and plastic waste.
- Do not dispose of the tripod in regular household waste.
- Consider recycling components where possible.

## Contact Information for Further Support

For any safety inquiries or support, please contact the manufacturer directly. Ensure to have your product details ready for efficient assistance.

Thank you for choosing the DEATHGRIP SHERPA TRIPOD. Enjoy your outdoor adventures safely!
