

AR-15/SR25 DT MIL-SPEC CARBINE STOCK - MAGPUL DT COLLAPSIBLE MIL-SPEC CARBINE STOCK FOR AR-15 ODG

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

The DT Carbine Stock is a drop-in replacement buttstock for AR15/M16/M4 carbines (or comparable platforms) equipped with Mil-Spec profile receiver extensions. It merges the best features of the SL and CTR product lines with its new dual tensioning technology, which provides greater strength and security for a more rugged and stable platform that's easy to adjust. The DT Stock is an A-frame style carbine stock that features an auto-engaging friction lock that's reflexive and inert during adjustment. This produces additional tension on the buffer tube, providing extra tight lockup that minimizes movement between the stock's lock pin and receiver extension. The result is increased durability in case of severe impacts and quick, smooth, and frictionless length-of-pull adjustments on the fly. Other features include a unique, non-slip butt-pad that matches the footprint of the SL line and incorporates the optimized curvature from the CTR, an ambidextrous adjustment lever, a rotation-limiting QD sling mount, and a 1.25" footman's loop. The DT is also compatible with legacy Magpul CTR Cheek Risers as an accessory, making it not only one of their sturdiest AR stocks, but also one of the most adaptable. Made in the USA Improves ease of adjustment while securing LOP placement, limiting secondary movements, and improving durability Single, anti-slag ambidextrous control lever Newly designed non-slip butt-pad with optimized curvature allows for easier shoulder transitions and better fit when using body armor Sloping cheek weld combines a slim profile with user comfort Side mounting slots accept optional Magpul CTR Cheek Risers Compatible with Magpul ASAP®, ASAP® QD and other receiver-mount sling attachments Rear 1.25" sling loop Rotation-limiting, integral push-button QD swivel sling mount accommodates up to 1.5" swivels (ambidextrous) Compatibility: Mil-Spec sized carbine receiver extension tube (not included) from manufacturers such as Colt, LMT, Ruger, S&W, SIG, and others LOP, M4 Collapsed: ~10.5 in. LOP, M4 Extended: ~13.8 in. LOP Adjustment Range: 3.3 in. Length, max: 6.9 in. Weight: 9.7 oz. Weight, w/ receiver extension~13.7 oz. *Specifications based on standard-length (flat-back) M4 Carbine receiver extension and may vary depending on tube manufacturer. NOTE: There are two basic sizes of M4 Carbine receiver extensions (buffer tubes): Mil-Spec and Commercial-Spec. The DT Carbine Stock will only fit with the common Mil-Spec tube.

Safety Instruction Guide for AR15/SR25 DT MILSPEC Carbine Stock

Introduction

Thank you for choosing the AR15/SR25 DT MILSPEC Carbine Stock from Magpul. This product is designed to provide you with a stable and adjustable platform for your firearm. To ensure your safety and the safety of others, please read this guide carefully and follow all instructions.

General Safety Guidelines

- Ensure that the firearm is unloaded before installing or adjusting the carbine stock.
- Always handle firearms with care and follow all local laws and regulations regarding firearm safety.
- Keep the carbine stock and firearm out of reach of children and unauthorized users.
- Regularly inspect the carbine stock for any signs of wear or damage before each use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Installation:** Ensure that the carbine stock is compatible with your MilSpec receiver extension. This stock is designed for MilSpec sized tubes only.
- **Adjustment:** Use the ambidextrous control lever to adjust the length of pull safely. Make sure your fingers are clear of any moving parts during adjustment.
- **Sling Mount:** When using the rotationlimiting QD sling mount, ensure that the sling is attached securely to prevent accidental detachment.
- **Cheek Weld:** Use the sloping cheek weld properly to maintain a comfortable and stable shooting position.
- **Body Armor:** If using body armor, ensure that the stock fits properly to allow for effective shoulder transitions.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded.
- Remove the existing stock from the receiver extension.
- Align the DT Carbine Stock with the MilSpec receiver extension.
- Push the stock onto the receiver extension until it locks into place.
- Check that the stock is securely attached by attempting to move it.

2. Adjustment:

- To adjust the length of pull, use the ambidextrous adjustment lever.
- Pull the lever while sliding the stock to the desired position.
- Release the lever to lock the stock in place.
- Ensure that the stock is locked securely by attempting to pull it back and forth.

3. Sling Attachment:

- Attach your sling to the rotationlimiting QD sling mount.
- Ensure that the sling is properly secured to prevent any accidental detachment during use.

4. Maintenance:

- Regularly clean the stock and inspect for any signs of damage.
- If any parts are damaged or worn, discontinue use and contact a qualified gunsmith for replacement.

Disposal Instructions

- Dispose of the carbine stock in accordance with local regulations.
- If the product is damaged beyond repair, ensure that it is disposed of safely to prevent accidents.

Contact Information for Further Support

For questions or concerns regarding the AR15/SR25 DT MILSPEC Carbine Stock, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for your attention to these safety guidelines. Your safety and the safety of others depend on responsible firearm handling and maintenance.
