

# SENTINEL II 1X20MM MICRO REFLEX SIGHT - SWAMPFOX OPTICS

## SENTINEL II 1X20MM RED 3 MOA DOT TRITIUM REAR MICRO SIGHT

[Optics & Mounting](#) > [Electronic Sights](#) > [Reflex Sights](#)

Crafted for concealed carry, Sentinel II showcases a fusion of advanced features in a sleek, cohesive design. The second-generation micro dot maintains a standardized RMSc footprint and slimline profile while maximizing visibility with a larger 20mm window. Uniquely equipped with a patented removeable rear sight guide installed in front of the window, the guide provides backup support for pistols that sacrifice rear iron sights for dot sight compatibility. Sentinel II displays a 3 MOA dot in red or green illumination and is equipped with Shake N' Wake auto on/off functionality for grab-and-go readiness.?

# Safety Instruction Guide for SENTINEL II 1X20MM MICRO REFLEX SIGHT

## Introduction

Thank you for choosing the SENTINEL II 1X20MM Micro Reflex Sight from Swampfox Optics. This product is designed to enhance your shooting experience while ensuring safety and reliability. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Always treat the sight as if it is loaded and ready to use.
- Ensure the sight is securely mounted on your firearm before use.
- Use the sight only with compatible firearms and accessories.
- Regularly inspect the sight for any signs of damage or wear.
- Keep the sight clean and free from obstructions to ensure optimal performance.
- Store the sight in a safe, dry place when not in use.

## Specific Safety Precautions for Use

- Avoid looking directly at the laser dot for prolonged periods.
- Ensure that the sight is turned off when not in use to preserve battery life and avoid accidental activation.
- Use the sight only in appropriate lighting conditions; excessive brightness may affect visibility.
- Do not modify the sight in any way, as this may compromise its safety and functionality.
- Keep the sight out of reach of children and unauthorized users.

## Instructions for Installation and Usage

### Installation

1. **Select a Compatible Firearm:** Ensure that your firearm is compatible with the RMsC footprint.
2. **Mounting the Sight:**
  - Locate the mounting plate on your firearm.
  - Align the sight with the mounting plate and secure it using the provided screws.
  - Tighten screws firmly, but do not overtighten to avoid damaging the sight or firearm.
3. **Check Alignment:** After installation, check the alignment of the sight with the firearm's barrel to ensure accuracy.

### Usage

1. **Powering On:**
  - Press the power button to turn on the sight.
  - The sight features Shake N' Wake functionality, automatically turning on when moved.
2. **Adjusting Brightness:**
  - Use the brightness settings to adjust the illumination level based on your environment.
  - There are 10 brightness settings available for optimal visibility.
3. **Zeroing the Sight:**
  - Follow the manufacturer's instructions for zeroing the sight to ensure accurate targeting.
  - Make necessary adjustments to elevation and windage as required.
4. **Regular Maintenance:**
  - Clean the lenses with a soft, lintfree cloth.
  - Perform regular checks to ensure that the sight remains securely mounted and functional.

## **Disposal Instructions**

- Dispose of the sight and its components in accordance with local regulations.
- Remove the battery before disposal and recycle it according to battery recycling guidelines.
- Do not dispose of the sight in regular household waste.

## **Contact Information for Further Support**

For additional support or inquiries regarding the SENTINEL II Micro Reflex Sight, please refer to the manufacturer's website or contact their support team.

By following these guidelines, you can ensure a safe and enjoyable experience with your SENTINEL II 1X20MM Micro Reflex Sight. Thank you for prioritizing safety and responsibility in your shooting activities.
