

# MATCH SERIES GUNNER 300 BLACKOUT PISTOL LENGTH RIFLE BARRELS - FAXON FIREARMS MATCH 300BLK 10.5" 1-8 TWIST GUNNER CONTOUR SS BBL NITRIDE

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrels](#)

A faster 1:5 Twist Rate combined with the Lightweight Faxon Gunner Profile. The 300 Blackout cartridge yields increased performance in shorter barrels and effective subsonic performance. By speeding up the twist rate to 1:5 from common 300 BLK rates of 1:7 and 1:8, these Faxon Match Series Gunner Barrels increase projectile stabilization and energy on target. The Gunner profile is a blend of two of the best performing profiles of all time, GOVT/SOCOM and Pencil. Faxon's Gunner profile combines the durability of the GOVT/SOCOM profile with the weight savings and maneuverability of the Pencil profile. The Gunner profile brings the balance of the rifle back towards the shooter's body, limiting fatigue, and allowing for shooting, training, or hunting all day long. Faxon Firearms barrels are the pinnacle of value. Manufactured in-house in Greater Cincinnati, Ohio, Faxon barrels are fully stress relieved, air-gauge tested, and 11-degree target crowned to ensure superior accuracy. Quality is imbued into Faxon Firearms barrels from the beginning of the manufacturing process. Faxon Match Series Barrels are made of 416-R Stainless Steel, given 5R rifling, and a NP3 (Nickel Teflon) barrel extension. Faxon barrels are Magnetic Particle Inspected (MPI) in-house to assure the greatest quality for a lifetime of service. Each barrel goes through a battery of tests at each operation until finished in Nitride and final inspected. All barrels are individually checked for headspace with precision, custom-hardened PTG gauges.

## Attributes

- Name: [FAXON FIREARMS MATCH 300BLK 10.5" 1-8 TWIST GUNNER CONTOUR SS BBL NITRIDE](#)
- Manufacturer: [FAXON FIREARMS](#)

# Safety Instruction Guide for MATCH SERIES GUNNER 300 BLACKOUT PISTOL LENGTH RIFLE BARRELS

## Introduction

Thank you for choosing the MATCH SERIES GUNNER 300 BLACKOUT PISTOL LENGTH RIFLE BARRELS by Faxon Firearms. This guide provides essential safety instructions to ensure safe and effective use of your new barrel. It is crucial to follow these guidelines to prevent accidents and ensure optimal performance.

## General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Ensure the barrel is properly installed and secure before use.
- Always wear appropriate eye and ear protection when shooting.
- Store firearms and ammunition in a secure place, out of reach of children and unauthorized users.
- Regularly inspect the barrel for any signs of wear or damage.
- Do not use ammunition that is not specified for use with the 300 AAC Blackout.

## Specific Safety Precautions for Use

- Do not exceed the manufacturer's recommended load specifications.
- Ensure that the barrel is compatible with your firearm model (AR15).
- Be aware of the twist rate (18) and its effect on projectile performance.
- Use only highquality ammunition to avoid malfunctions.
- Be cautious of the muzzle threads (5/824) and ensure they are not damaged.
- Do not attempt to modify the barrel or its components.
- Always follow local laws and regulations regarding firearm usage and ownership.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded before starting the installation process.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Clean the barrel extension area to remove any debris or fouling.
- Align the new Faxon barrel with the upper receiver and ensure it is seated properly.
- Secure the barrel using the appropriate torque specifications as provided by the manufacturer.
- Reattach any necessary components (e.g., gas block, handguard) according to the manufacturer's guidelines.

### 2. Usage:

- After installation, conduct a function check to ensure proper cycling and operation.
- Always follow safe shooting practices as outlined in the general safety guidelines.
- Monitor the barrel for overheating during extended shooting sessions.
- Clean the barrel regularly to maintain accuracy and performance.

## **Disposal Instructions**

- Dispose of any damaged or worn barrels in accordance with local regulations.
- Do not throw away the barrel in regular household waste.
- Contact local authorities or recycling centers for proper disposal methods for firearms components.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or performance of your MATCH SERIES GUNNER 300 BLACKOUT PISTOL LENGTH RIFLE BARRELS, please refer to the manufacturer's contact information provided with your product.

## **Conclusion**

Following these safety instructions will help ensure a safe and enjoyable shooting experience with your MATCH SERIES GUNNER 300 BLACKOUT PISTOL LENGTH RIFLE BARRELS. Always prioritize safety and responsible firearm handling. Thank you for choosing Faxon Firearms.
