

MOE TR MIL-SPEC CARBINE STOCK - MAGPUL MOE TR CARBINE STOCK MILSPEC FDE

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

MOE TR MIL-SPEC CARBINE STOCK At only eight ounces, the MOE® Trigger Release (TR) is one of Magpul's lightest stocks. Thanks to its ambidextrous, textured Trigger Release adjustment mechanism, it's also one of the easiest for making LOP adjustments, as well as installing or removing the stock. The Trigger Release combines with a newly developed takedown lever that also makes the MOE TR stock Magpul's easiest stock to install and remove on your firearm. That means no more leveraging a high-tension spring to mount and remove your stock; the innovative, one-handed toolless takedown lever allows quick and easy installation and removal. It includes a "padlock" icon to indicate whether the stock is locked or unlocked. Once the lever is positioned in the "locked" position, it can't be removed from the receiver extension, ensuring it won't slide off when making LOP adjustments. The takedown lever is also partially recessed to minimize snagging while still permitting easy access to select it when necessary. For sling attachment, the TR includes ambidextrous M-LOK® slots on each side of rear of the stock that function as a footman's loop or a space to attach M-LOK QD Sling Mounts. NEW TRIGGER RELEASE SLIDER MECHANISM Ambidextrous sliding, textured, low-profile control trigger pulls double duty as a simple one-handed LOP adjustment lever, as well as allows for toolless installation and removal. EASY INSTALLATION A takedown lever on the bottom of the stock permits full retraction of the trigger so the stock can slide on and off the receiver extension with minimal effort. The takedown lever's position is indicated with a padlock icon showing the trigger's status for installation or LOP adjustment. MINIMALIST, LIGHTWEIGHT DESIGN One of the lightest MOE stocks created at only 8.0 ounces. CUSTOMIZABLE Compatible with Magpul ASAP®, ASAP® QD and other receiver-mount sling attachments. Rear ambidextrous M-LOK® slots function as a footman's loop for direct sling attachment, and can also accept optional M-LOK QD Sling Mounts for push-button swivels. Compatible with MOE SL® Enhanced Rubber Butt-Pad, 0.70" for additional LOP. SPECIFICATIONS: Platform - AR10, AR15, M4, M16, M110, SR25 Compatibility - Mil-Spec sized carbine receiver extension tube (not included) from manufacturers such as Colt, LMT, Ruger, S&W, SIG, and others* LOP, M4 Collapsed - ~10.5 in. LOP, M4 Extended - ~13.8 in. LOP Adjustment Range - 3.3 in. Length, max - 7.0 in. Height, max - 5.3 in. Weight - 8.0 oz. Weight, w/ receiver extension - ~11.8 oz. Width, max - 1.6 in.

MOE TR MILSPEC CARBINE STOCK Safety Instructions

Introduction

Thank you for choosing the MOE TR MILSPEC Carbine Stock by Magpul. This product is designed to enhance your firearm's performance while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use, install, and dispose of the product safely.

General Safety Guidelines

- Ensure that the MOE TR Carbine Stock is compatible with your firearm before installation.
- Always follow local laws and regulations regarding firearm modifications and usage.
- Inspect the stock for any visible damage before use. Do not use if damaged.
- Keep the stock and all firearm accessories out of reach of children.
- Always handle firearms with care and treat them as if they are loaded.
- Familiarize yourself with the operation of the stock before use.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed.

Specific Safety Precautions for Use

- **Installation Safety:**
 - Ensure the firearm is unloaded before installing or removing the stock.
 - Use the takedown lever as instructed to avoid injury.
- **Usage Safety:**
 - Adjust the Length of Pull (LOP) only when the firearm is pointed in a safe direction.
 - Do not force the stock onto the receiver extension; ensure the takedown lever is properly engaged.
- **Maintenance Safety:**
 - Regularly inspect the stock for wear and tear.
 - Clean the stock according to the manufacturer's guidelines to ensure optimal performance.
- **Sling Attachment Safety:**
 - Ensure that any slings attached to the stock are securely fastened to avoid accidental detachment.
 - Do not exceed the recommended weight limit for sling attachments.

Instructions for Installation and Usage

Installation Instructions

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools if required (none are typically needed for this product).

2. Remove the Old Stock:

- Use the appropriate tools to remove the existing stock from the receiver extension.

3. Install the MOE TR Carbine Stock:

- Align the stock with the receiver extension.
- Engage the takedown lever by pushing it into the "locked" position.
- Ensure the stock is securely attached and does not wobble.

4. Adjust the Length of Pull (LOP):

- Use the ambidextrous Trigger Release mechanism to adjust the LOP to your preference.
- Confirm the adjustment by checking that the lever is in the locked position.

Usage Instructions

- Always check the stock's integrity before each use.
- Adjust the stock only when the firearm is pointed in a safe direction.
- Use the ambidextrous MLOK slots for sling attachment as needed.

Disposal Instructions

- Dispose of the MOE TR Carbine Stock in accordance with local regulations regarding plastic waste.
- Do not incinerate the stock as it may release harmful substances.
- Consider recycling the stock if possible, or contact local waste management for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the MOE TR Carbine Stock, please refer to the manufacturer's website or contact your local retailer for assistance. Always ensure you have access to up-to-date safety information and guidelines.

Thank you for prioritizing safety while using the MOE TR MILSPEC Carbine Stock.
