

MAXIMUS 308 CALIBER (0.308") RIFLE BULLETS - CUTTING EDGE BULLETS MAXIMUS 308 CALIBER (0.308") SOLID COPPER HP 180GR 50/BOX

[Reloading](#) > [Bullets](#) > [Rifle Bullets](#)

The all new MAXIMUS® line is a hybrid between Cutting Edge's popular high BC MTH® bullets and their extreme trauma producing Raptor™ bullets. This truly unique line is the missing piece in the Cutting Edge Bullets product line offering. Cutting Edge have offered an extensive number of bullet lines to fill every need, but the one thing that was missing was a bullet designed for high BC AND high trauma. The Maximus® line is a hybrid between CEB's high BC MTH (Match/Tactical/Hunting)® line and their high trauma Raptor™ line, filling in the missing piece of the CEB product line offering. The Maximus® is also designed to be more destructive and have deeper penetration than the Raptor series. After 4-6" of penetration, 4-8 blades break off and create one large, massive wound channel. The number of blades shed is dependent upon velocity. Eight blades will break off at impact velocities over 2400fps, and below that, 4 larger blades will break off down to 1400fps. They feature a sleek, smooth profile and feature Cutting Edge's unique SealTite® Band. This patented technology is a band slightly larger than caliber diameter around the body of the bullet which creates a complete seal as the bullet exits the case and maintains that seal until it exits the barrel. This in turn increases accuracy by eliminating gas blow-by and decreasing copper fouling. The Maximus line has also been designed to be heavier than the Raptor series making them more appealing to traditional, lead core bullet users. Key features of the MAXIMUS: Extreme trauma High BC (.282 G1 - .145 G7) Heavier weight Competitively priced Projection Length: .700" Min Impact Velocity Required for Expansion: 1300fps

Attributes

- Name: [CUTTING EDGE BULLETS MAXIMUS 308 CALIBER \(0.308"\) SOLID COPPER HP 180GR 50/BOX](#)
- Manufacturer: [CUTTING EDGE BULLETS](#)
- Product no.: 430110703
- Mfr. No.: M.308 180
- Ballistic Coefficient (G1): 0.486
- Ballistic Coefficient (G7): 0.249
- Brand Style: Maximus
- Bullet Style: Hollow Point (HP)
- Caliber: 308 Caliber
- Diameter (in): 0.308
- Grain: 180
- Quantity: 50
- Delivery weight: 0.585kg
- UPC: 812191023917

MAXIMUS 308 Caliber Rifle Bullets Safety Instruction Guide

Introduction

Thank you for choosing the MAXIMUS 308 Caliber Rifle Bullets. This guide provides essential safety instructions to ensure the safe use and handling of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the MAXIMUS 308 Caliber Rifle Bullets by following all safety instructions provided.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices regarding this product. If a recall occurs, follow the instructions provided for returning or replacing the product.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements as mandated by the EU regulations.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of children and vulnerable individuals.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point provided by the manufacturer.
- **Rapid Alerts:** Regularly check the EU Safety Gate platform for updates on product safety and potential hazards.

Specific Safety Precautions for Use

- **Read the Instructions:** Always read and understand the safety instructions before using the bullets.
- **Use Proper Equipment:** Ensure that you are using firearms and ammunition that are compatible with 308 caliber bullets.
- **Protective Gear:** Always wear appropriate protective gear, such as safety glasses and hearing protection, when handling or firing ammunition.
- **Storage:** Store bullets in a cool, dry place away from direct sunlight and moisture. Ensure that they are kept in a secure location to prevent unauthorized access.
- **Handling:** Handle bullets with care. Avoid dropping or mishandling them to prevent accidental discharge or damage.
- **Disposal:** Follow local regulations for the disposal of unused or expired ammunition. Do not dispose of bullets in regular household waste.

Instructions for Installation and Usage

- **Preparation:** Before loading the bullets, ensure that the firearm is unloaded and pointed in a safe direction.
- **Loading:**
 - Open the ammunition magazine as per the firearm's instructions.
 - Carefully insert the MAXIMUS 308 Caliber bullets into the magazine, ensuring they are seated properly.
 - Close the magazine securely.
- **Firing:**
 - Ensure the firearm is aimed at a safe target area.
 - Check that the safety mechanism is disengaged before firing.
 - Fire the weapon according to the manufacturer's instructions and ensure all safety protocols are followed.
- **PostFiring:** After firing, always treat the firearm as if it is loaded until you have verified it is empty.

Clean the firearm and store it safely.

Disposal Instructions

- **Unused Bullets:** For any unused or expired MAXIMUS 308 Caliber bullets, contact local authorities or waste management services for guidance on proper disposal methods.
- **Hazardous Materials:** Do not dispose of bullets in regular trash. Follow local laws regarding hazardous materials and ammunition disposal.

Contact Information for Further Support

For further support, please refer to the manufacturer's website or customer service resources. Ensure you have the product details available for any inquiries.

By following these safety instructions, you can ensure the safe and effective use of the MAXIMUS 308 Caliber Rifle Bullets. Always prioritize safety when handling and using ammunition.
