MICRO FIGHT CHASSIS MK4 STARTER KIT MULTI-CAM

[Home](#)

Looking for a chest rig to maximize your defensive training but not sure where to start? Brownells has made it easy with the Micro Fight Chassis Mk4 Starter Kit! The Micro Fight Chest Rig Mk4 is designed for efficiency, modularity, and lightweight performance. Like the MkV, it integrates seamlessly with Spiritus Systems accessories, offering nearly endless configurations. However, unlike the MkV, the Mk4 features two large pockets instead of one, each lined with soft hook & loop, allowing you to position mission-essential items exactly where you need them. A 5" x 9" field of hard hook & loop on the back of the rig ensures solid integration with accessories like the SACK Pouch or Expander Wings, as well as plate carriers like the LV119. The Mk4 also supports sub-load integration of a tourniquet using two integrated grommets and the Universal Retention Kit. The Mk4 excels as a stand-alone chest rig in situations that require full-spectrum gear. Kit includes: Mk4 Micro Fight Chassis Backstraps Fat Strap shoulder straps Triple 5.56 magazine insert Mk2 Half Flap 2-Mag Pistol Magazine insert
