

SKS POLYMER MAGAZINES 7.62X39MM - PRO MAG SKS MAGAZINE 40-RD POLYMER BLACK 7.62X39MM

[Magazines](#) > [Rifle Magazines](#) > [Magazines](#)

A Lightweight, Durable Magazine Designed for Your SKS Carbine

The SKS carbine is one of the gems of the surplus market, having ended up in every enthusiast's collection at one point or another. Though they've gone up in price in recent years, they still make great range rifles, and the use of these extended-capacity magazines only increases the amount of trigger time you can get through these carbines. To keep things affordable, the magazine body on each of these SKS mags is molded from DuPont's Zytel-based polymer, which has a reputation for durability. Inside the magazine, you'll find a long-lasting magazine spring made from heat-treated, chrome-silicon wire, which is topped by an injection-molded follower. These SKS carbine magazines are designed for use with 7.62x39mm only and are available in 30- and 40-round capacities. The magazine is made in the USA, and the company warns that variations between the magwell dimensions in different SKS carbines may require owners to hand-fit the magazine into place, or the magazine may not fit your individual firearm.

Safety Instruction Guide for SKS Polymer Magazines 7.62x39mm Pro Mag SKS Magazine 40RD Polymer Black

Introduction

Thank you for choosing the SKS Polymer Magazine 7.62x39mm. This guide provides essential safety instructions and information to ensure the safe use of your magazine. Please read this guide carefully and keep it for future reference.

General Safety Guidelines

- Ensure safe use of all nonfood products, including firearms and related accessories.
- Be aware of risks not covered by other regulations.
- If shopping online, verify that the seller complies with safety requirements.
- Extra precautions should be taken for vulnerable groups, including children.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay updated on recall notices through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always handle magazines and firearms with care. Treat every firearm as if it is loaded.
- Do not use the magazine with firearms other than the SKS carbine designed for 7.62x39mm cartridges.
- Inspect the magazine for any damage or defects before use.
- Ensure that the magazine is properly fitted to the firearm before loading ammunition.
- Keep magazines out of reach of children and unauthorized users.
- Do not attempt to modify the magazine in any way, as this may compromise its safety and functionality.
- If you experience any issues with the magazine, cease use immediately and consult a qualified professional.

Instructions for Installation and Usage

• Installation:

1. Ensure that the SKS carbine is pointed in a safe direction and is unloaded.
2. Align the magazine with the magazine well of the SKS carbine.
3. Press the magazine firmly into the magazine well until it clicks into place. If it does not fit, do not force it; handfitting may be required.

• Usage:

1. Load the magazine with 7.62x39mm cartridges according to the manufacturer's recommendations.
2. Insert the loaded magazine into the SKS carbine as described in the installation section.
3. Ensure the firearm is ready for use, following all safety protocols for handling firearms.
4. After use, remove the magazine from the firearm and store it in a safe location.

Disposal Instructions

- Dispose of the magazine in accordance with local regulations regarding plastic waste.
- Do not dispose of the magazine in regular household waste.
- If the magazine is damaged or no longer functional, consider recycling options or consult local waste management services for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the SKS Polymer Magazine, please refer to the manufacturer's contact details provided at the point of purchase or on the packaging.

Thank you for your attention to these safety guidelines. Enjoy your shooting experience responsibly.
