

# ULTRASONIC CASE CLEANER - 2 - RCBS ULTRASONIC CASE CLEANER - 2 240VAC

[Reloading](#) > [Case Cleaning](#) > [Ultrasonic Case Cleaners](#)

## Cleans a Mountain of Brass in a Short Time

RCBS's Ultrasonic Case Cleaner-2 has nearly double the capacity of their original ultrasonic cleaner, so high-volume reloaders can save even more time and get to the reloading press faster. Simply dump your empty brass into the voluminous 6.3 quart stainless steel tub, add the cleaning solution of your choice (RCBS's own solution, sold separately, is always a good option) to begin rapidly removing tarnish, carbon buildup, and metal oxide from your cases. The RCBS Ultrasonic Case Cleaner-2 is fitted with two ceramic heaters and transducers to ensure even temperature and uniform distribution of the ultrasound waves for fast, thorough cleaning of both brass cases and gun parts. Big 6.3-quart capacity - cleans lots of brass or gun parts FAST Non-corroding, long-lasting stainless steel parts basket Separate, smaller stainless steel parts tub for small jobs Available in 120 or 240 volts 240 VAC model is EU/UK/AUS compliant Handy drain hose included for fast fluid disposal The RCBS Ultrasonic Case Cleaner-2 has an intuitive LED display and an easy-to-program timer that can be set for up to 30 minutes of continuous cleaning. Spend more time loading ammo, less time waiting for your cases to get clean!

# Safety Instruction Guide for RCBS Ultrasonic Case Cleaner2

## Introduction

Thank you for choosing the RCBS Ultrasonic Case Cleaner2. This product is designed to help you efficiently clean your brass cases and gun parts. To ensure safe and effective use, please read this safety instruction guide carefully. It is important to follow all guidelines to protect yourself and others while using the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the user manual.
- Always keep the Ultrasonic Case Cleaner out of reach of children and vulnerable individuals.
- Do not operate the cleaner if it is damaged or malfunctioning.
- Always use the cleaner in a wellventilated area to avoid inhaling any fumes from cleaning solutions.
- Follow all instructions regarding the handling and disposal of cleaning solutions.
- Be aware of the potential hazards associated with electrical appliances, including the risk of electric shock.
- Regularly check for product recalls on the EU's Safety Gate platform to ensure your product is safe.

## Specific Safety Precautions for Use

### • Electrical Safety:

- Ensure that the voltage matches the specifications of your model (120V or 240V).
- Use a properly grounded outlet to prevent electric shock.
- Do not operate the cleaner with wet hands or while standing on a wet surface.
- Avoid using extension cords; if necessary, ensure they are rated for the cleaner's power requirements.

### • Chemical Safety:

- Use only cleaning solutions specifically designed for ultrasonic cleaners.
- Always read and follow the safety instructions on the cleaning solution's label.
- Store cleaning solutions in a safe place, away from children and pets.
- Wear protective gloves and eyewear when handling cleaning solutions.

### • Operational Safety:

- Do not place any items in the cleaner that are not intended to be cleaned (e.g., electronics, batteries).
- Avoid overfilling the cleaner beyond the maximum fill line.
- Do not operate the cleaner without water or cleaning solution in the tank.
- Always allow the cleaner to cool down after use before handling.

## Instructions for Installation and Usage

### 1. Installation:

- Place the Ultrasonic Case Cleaner on a flat, stable surface away from water sources and heat sources.
- Ensure the power cord is routed safely to avoid tripping hazards.

- Connect the cleaner to a power outlet that matches the voltage requirements.

## **2. Preparation:**

- Fill the stainless steel tub with water and the appropriate cleaning solution according to the manufacturer's instructions.
- Ensure the parts basket is securely placed inside the tub to prevent movement during operation.

## **3. Operation:**

- Turn on the cleaner using the intuitive LED display.
- Set the timer for the desired cleaning duration (up to 30 minutes).
- Monitor the cleaning process to ensure safety and effectiveness.
- Once the cleaning cycle is complete, turn off the cleaner and allow it to cool.

## **4. PostUse:**

- Carefully remove the parts basket and allow items to drain.
- Dispose of the used cleaning solution according to local regulations.
- Clean the tank and parts basket with water to remove any residue.

# **Disposal Instructions**

- Dispose of the Ultrasonic Case Cleaner at the end of its life in accordance with local electronic waste disposal regulations.
- Dispose of used cleaning solutions responsibly; do not pour them down the drain unless permitted by local guidelines.
- Recycle packaging materials where possible to minimize environmental impact.

# **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact information provided with the product packaging. Always keep this safety instruction guide for future reference.
