

CUSTOM GRADE STANDARD SEATING DIES - CUSTOM GRADE 45-70 GOVERNMENT BULLET SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Hornady's Custom Grade New Dimension dies are created from select steel that's heat-treated to ensure the durability needed for a lifetime of reloading. Hornady guarantees they'll never wear out or break under normal use. All dies include the popular double-flat Hornady die lock rings installed and a custom plastic box. Hornady dies are grouped in three series for pricing - die construction and quality is equal in each series. Custom Grade Seater dies include a sliding alignment sleeve which holds the bullet, case mouth, and seater stem in alignment before the bullet enters the case mouth. Seater dies include a built-in crimp ring which can be used or raised for no crimp. All dies come with the popular double-flat Hornady die lock rings installed and a custom plastic die box.

CUSTOM GRADE STANDARD SEATING DIES Safety Instruction Guide

Introduction

Thank you for choosing the CUSTOM GRADE STANDARD SEATING DIES CUSTOM GRADE 4570 GOVERNMENT BULLET SEATER DIE by Hornady. This guide provides essential safety instructions and guidelines to ensure safe and effective use of this product. Please read this document carefully before using the die to ensure a safe reloading experience.

General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Ensure that the workspace is clean and organized to prevent accidents.
- Keep the dies out of reach of children and unauthorized individuals.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves during the reloading process.
- Store the dies in a safe, dry place when not in use.
- Regularly inspect the dies for any signs of wear or damage before each use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the die is correctly installed in the reloading press before use.
- Do not exceed the recommended load specifications for the 4570 Government cartridge.
- Always use the die in a wellventilated area to avoid inhalation of dust or fumes.
- Never attempt to modify or alter the die in any way.
- Be cautious of the crimp ring; ensure it is set correctly to avoid overcrimping or damaging the bullet.
- Avoid distractions while reloading to maintain focus and attention.

Instructions for Installation and Usage

1. Installation:

- Remove the die from its packaging and inspect it for any damage.
- Securely install the die into your reloading press according to the manufacturer's instructions.
- Ensure that the doubleflat Hornady die lock rings are properly tightened to maintain alignment.

2. Usage:

- Insert a case into the reloading press and ensure it is fully seated.
- Place a bullet into the alignment sleeve of the die.
- Pull the press handle down smoothly to seat the bullet into the case.
- If crimping is required, ensure the crimp ring is properly adjusted to achieve the desired crimp without damaging the bullet.
- Inspect each completed cartridge for proper seating and crimp.

Disposal Instructions

- Dispose of any damaged or wornout dies according to local regulations.
- Do not dispose of reloading materials or components in regular household waste.
- Contact local waste management authorities for guidance on the safe disposal of hazardous materials.

Contact Information for Further Support

For any inquiries or further support regarding the CUSTOM GRADE STANDARD SEATING DIES, please reach out to the designated EU contact point provided by the manufacturer. Always refer to the manufacturer's website or product documentation for the most current contact information.

Thank you for your attention to these safety instructions. Your adherence to these guidelines will help ensure a safe and effective reloading experience.
