

# CUSTOM GRADE STANDARD SEATING DIES - CUSTOM GRADE 280 REMINGTON BULLET SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Hornady's Custom Grade New Dimension dies are created from select steel that's heat-treated to ensure the durability needed for a lifetime of reloading. Hornady guarantees they'll never wear out or break under normal use. All dies include the popular double-flat Hornady die lock rings installed and a custom plastic box. Hornady dies are grouped in three series for pricing - die construction and quality is equal in each series. Custom Grade Seater dies include a sliding alignment sleeve which holds the bullet, case mouth, and seater stem in alignment before the bullet enters the case mouth. Seater dies include a built-in crimp ring which can be used or raised for no crimp. All dies come with the popular double-flat Hornady die lock rings installed and a custom plastic die box.

# Safety Instruction Guide for CUSTOM GRADE STANDARD SEATING DIES

## Introduction

Thank you for choosing the CUSTOM GRADE STANDARD SEATING DIES, specifically the CUSTOM GRADE 280 REMINGTON BULLET SEATER DIE by Hornady. This guide provides essential safety instructions and guidelines to ensure the safe use and handling of this product. Please read this document carefully before using the die.

## General Safety Guidelines

- Ensure that you are familiar with the reloading process and the specific requirements for the 280 Remington cartridge.
- Store the dies in a secure location, out of reach of children and pets.
- Always use the dies in a wellventilated area to avoid inhaling any dust or particles.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the dies.
- Regularly inspect the dies for any signs of wear or damage. Do not use damaged dies.
- Follow all local laws and regulations regarding ammunition reloading and safety.

## Specific Safety Precautions for Use

- Keep your workspace clean and organized to avoid accidents.
- Ensure that the die is properly mounted in the press before use.
- Always check the alignment of the sliding alignment sleeve before inserting the bullet into the case.
- Do not exceed the recommended load specifications for the 280 Remington cartridge.
- Be cautious when using the builtin crimp ring; ensure it is adjusted correctly to avoid overcrimping.
- Never leave the reloading process unattended. Always be present while using the dies.

## Instructions for Installation and Usage

### 1. Installation

- Unpack the die and ensure all components are present.
- Mount the die securely into your reloading press according to the manufacturer's instructions.
- Attach the doubleflat Hornady die lock ring to secure the die in place.

### 2. Usage

- Prepare your cases by cleaning and inspecting them for defects.
- Insert the sliding alignment sleeve into the die.
- Place a bullet into the sleeve and ensure it is aligned with the case mouth.
- Raise the ram of the press to seat the bullet into the case.
- If crimping is desired, adjust the builtin crimp ring as needed.
- After seating, check the overall length of the cartridge to ensure it meets specifications.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the dies in regular household waste. Check with local waste management for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries related to safety or product issues, please contact Hornady's customer support. Ensure you have the product details ready for assistance.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your CUSTOM GRADE STANDARD SEATING DIES. Always prioritize safety and compliance with relevant regulations while reloading ammunition. Thank you for your attention to these important safety measures.
