

# ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

## 280 REMINGTON MICROMETER SEATER DIE

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: FORSTER PRODUCTS, INC. 280 REMINGTON MICROMETER SEATER DIE
- Manufacturer: FORSTER PRODUCTS, INC.
- Product no.: 749006836
- Mfr. No.: U00088
- Cartridge: 280 Remington
- Diameter (in): -
- Die Style: Bullet Seating Dies
- Delivery weight: 0.499kg
- Shipping height: 56mm
- Shipping width: 130mm
- Shipping length: 218mm
- UPC: 757253006586

# ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instruction Guide

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before use to familiarize yourself with safety precautions and operational procedures.

## General Safety Guidelines

- Ensure that the product is used only by individuals who are knowledgeable about reloading and firearm safety.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling and using reloading equipment.
- Keep the workspace clean and organized to avoid accidents and ensure safe handling of materials.
- Store the dies in a secure location, out of reach of children and vulnerable individuals.
- Regularly inspect the dies for any signs of wear or damage before each use. Do not use damaged equipment.
- Follow all local laws and regulations regarding the use of reloading equipment and ammunition.

## Specific Safety Precautions for Use

- Use the dies only for their intended purpose, which is to seat bullets for the 280 Remington cartridge.
- Always verify that the die is securely attached to the reloading press before use.
- Avoid overtightening the die, as this may lead to damage or malfunction.
- When adjusting the micrometer, do so gently to prevent stripping the threads or damaging the mechanism.
- Keep fingers and hands clear of all moving parts during operation to prevent injury.
- If you experience any unusual resistance while using the die, stop immediately and inspect for obstructions or damage.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the reloading press is securely mounted and stable.
- Remove the die from its packaging and inspect it for any visible damage.
- Thread the die into the reloading press by turning it clockwise until it is snug. Do not overtighten.
- Attach the Forster Cross Bolt Die Locking Ring by tightening the two ends of the split ring to secure the die in place.

### 2. Usage:

- Set the micrometer adjustment to the desired bullet seating depth, starting with a conservative setting.
- Insert a cartridge case into the reloading press and ensure it is properly aligned.
- Place a bullet on top of the cartridge case and lower the ram to seat the bullet.
- After seating, remove the completed cartridge and check the bullet seating depth using calipers.
- If necessary, adjust the micrometer in increments of .0005 inch to achieve the desired depth.
- Record the micrometer setting for future reference to facilitate easy switching between bullet types.

## **Disposal Instructions**

- Dispose of any damaged or worn dies in accordance with local regulations for hazardous materials.
- Do not discard reloading materials or components in regular household waste. Instead, follow local guidelines for the disposal of ammunition components.
- Recycle packaging materials where possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the ULTRA™ MICROMETER SEATER DIES or safety inquiries, please reach out to your local distributor or refer to the manufacturer's website for additional support and resources.

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience with the ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and responsible handling when working with reloading equipment.
