

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

325 WSM MICROMETER SEATER DIE

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: FORSTER PRODUCTS, INC. 325 WSM MICROMETER SEATER DIE

ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This guide provides essential safety instructions to ensure the safe use and handling of your reloading dies. Please read this document carefully before use to understand the safety precautions and proper operation of the product.

General Safety Guidelines

- Ensure that the product is used in accordance with all local laws and regulations regarding firearms and ammunition.
- Always handle reloading dies with care and store them in a safe, dry place when not in use.
- Keep the dies out of reach of children and unauthorized users.
- Regularly inspect the dies for any signs of damage or wear before use.
- If you encounter any issues or have questions regarding the product, seek assistance from a qualified professional.

Specific Safety Precautions for Use

- Always wear appropriate safety equipment, including safety glasses, when reloading ammunition.
- Use the dies only for their intended purpose; do not attempt to modify or alter them.
- Ensure that your work area is welllit and free from distractions while reloading.
- Follow the manufacturer's instructions for the specific caliber and type of ammunition you are reloading.
- Be cautious of the potential hazards associated with reloading, including the handling of gunpowder and primers.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is securely mounted and stable.
- Carefully unpack the ULTRA™ MICROMETER SEATER DIES from the packaging.
- Install the die into the reloading press according to the manufacturer's instructions, ensuring it is tightened securely.

2. Usage

- Set the micrometer adjustment to the desired bullet seating depth.
- Place a case in the press and ensure it is properly aligned with the die.
- Operate the press to seat the bullet, ensuring consistent pressure is applied.
- After seating, measure the overall cartridge length to verify the bullet depth.
- If adjustments are needed, carefully dial the micrometer to the desired setting and repeat the seating process.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact your local waste management authority for proper disposal guidelines for hazardous materials.

Contact Information for Further Support

For any inquiries regarding safety, usage, or other concerns related to the ULTRA™ MICROMETER SEATER DIES, please consult the manufacturer's official website or contact their support team directly.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and adhere to best practices while handling and using reloading equipment. Thank you for choosing Forster Products, Inc.
