

# PRO-SERIES CARBIDE + G1298 DIE SETS - 40 S&W Carbide 3 Die Set

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

For those of you who want the best in pistol dies consider a Redding Titanium Carbide Set. Titanium Carbide has the highest hardness of any readily available carbide and provides a slick, non-galling surface. The price is a little higher but no lubrication is needed and your cases will glide through the sizing die. Pro Series Pistol Die Sets are designed for use in progressive reloading machines. The expander die is eliminated from the set and a separate crimp die is substituted. The set includes a carbide sizing die, bullet seater (no crimp type), and a separate crimp die. Please note: These dies are specifically designed for progressive machines that expand the case mouth at the powder metering station so no expander die is included with this die set.

## Attributes

- Name: [40 S&W Carbide 3 Die Set](#)
- Manufacturer: [REDDING](#)
- Product no.: 749007136

# PROSERIES CARBIDE + G1298 DIE SETS 40 S&W Carbide 3 Die Set Safety Instructions

## Introduction

Thank you for choosing the PROSERIES CARBIDE + G1298 DIE SETS 40 S&W Carbide 3 Die Set. This product is designed for safe and effective use in reloading ammunition. Please read this safety instruction guide carefully to ensure proper handling and usage of the die set.

## General Safety Guidelines

- Ensure that you are familiar with the basic principles of reloading ammunition before using this product.
- Always use personal protective equipment, such as safety glasses and gloves, when handling reloading components.
- Store all reloading materials and tools in a secure location, out of reach of children and unauthorized users.
- Regularly inspect your reloading equipment for signs of wear or damage. Replace any worn or damaged components before use.
- Follow all local laws and regulations regarding ammunition reloading and storage.

## Specific Safety Precautions for Use

### • Hazard Identification:

- Improper use of reloading dies can lead to accidents, including misfires or damaged ammunition.
- Ensure that the die set is compatible with your reloading press and the specific ammunition you intend to produce.

### • Avoiding Hazards:

- Always doublecheck that the sizing die is properly installed and tightened before use.
- Do not attempt to modify or alter the die set in any way, as this may compromise safety.
- Use the die set only for its intended purpose; do not use it for any other applications.

### • Age and AudienceSpecific Warnings:

- This product is intended for use by individuals who are 18 years of age or older and possess a valid firearms license where required.
- Keep this product and all reloading components out of reach of children.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is clean and free from debris.
- Install the carbide sizing die into the press according to the manufacturer's instructions.
- Attach the bullet seater die (no crimp type) to the press.
- Install the separate crimp die as directed.

### 2. Usage:

- Begin by preparing your brass cases. Ensure they are clean and free from defects.
- Insert the brass case into the sizing die and operate the press to resize the case.

- After resizing, use the bullet seater die to seat the bullet into the case.
- Finally, use the crimp die to apply the appropriate crimp to the loaded round.
- Regularly check the dimensions of your loaded ammunition to ensure they meet safety standards.

## **Disposal Instructions**

- Dispose of any damaged or unusable reloading components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste. Contact local waste management authorities for proper disposal methods.
- Ensure that all empty brass cases are recycled or disposed of responsibly.

## **Contact Information for Further Support**

For any safety inquiries or further support, please reach out to the designated contact point provided with your product. Ensure that you have the product information available when seeking assistance.

By following these guidelines, you can ensure a safe and effective reloading experience with your PROSERIES CARBIDE + G1298 DIE SETS 40 S&W Carbide 3 Die Set. Always prioritize safety and adhere to recommended practices for reloading ammunition.
