

# PRO-SERIES CARBIDE + G1298 DIE SETS - 10mm Auto Carbide 3 Die Set

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

For those of you who want the best in pistol dies consider a Redding Titanium Carbide Set. Titanium Carbide has the highest hardness of any readily available carbide and provides a slick, non-galling surface. The price is a little higher but no lubrication is needed and your cases will glide through the sizing die. Pro Series Pistol Die Sets are designed for use in progressive reloading machines. The expander die is eliminated from the set and a separate crimp die is substituted. The set includes a carbide sizing die, bullet seater (no crimp type), and a separate crimp die. Please note: These dies are specifically designed for progressive machines that expand the case mouth at the powder metering station so no expander die is included with this die set.

## Attributes

- Name: [10mm Auto Carbide 3 Die Set](#)
- Manufacturer: [REDDING](#)
- Product no.: 749007139
- Mfr. No.: 89520
- Cartridge: 10 mm Auto

## Auto Carbide 3 Die Set Safety Instruction Guide

### Introduction

Thank you for choosing the PROSERIES CARBIDE + G1298 DIE SETS 10mm Auto Carbide 3 Die Set. This guide provides essential safety instructions and usage guidelines to ensure safe and effective operation of your die set. Please read this guide carefully before using the product.

### General Safety Guidelines

- Ensure that the die set is used only for its intended purpose as specified in this guide.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the die set and all reloading components out of reach of children and unauthorized individuals.
- Regularly inspect the die set for any signs of wear or damage before each use.
- Ensure that your reloading area is wellventilated and free from flammable materials.
- Follow all local laws and regulations regarding reloading and firearms.

### Specific Safety Precautions for Use

- **Handling:**
  - Always handle the die set with care to avoid injury.
  - Do not use excessive force when operating the dies; if resistance is felt, stop and check for obstructions.
- **Lubrication:**
  - This die set does not require lubrication due to the titanium carbide coating. Using lubrication may affect performance.
- **Material Compatibility:**
  - Ensure that the cases you are using are compatible with the 10mm Auto caliber.
- **Progressive Reloading Machines:**
  - This die set is designed specifically for use in progressive reloading machines. Do not attempt to use it with singlstage presses without proper adjustments.

### Instructions for Installation and Usage

1. **Installation:**
  - Follow the manufacturer's instructions for installation on your specific progressive reloading machine.
  - Securely mount the carbide sizing die in the press as per the instructions provided with your machine.
  - Install the bullet seater die (no crimp type) and the separate crimp die in their respective positions.
2. **Usage:**
  - Adjust the sizing die to ensure that it properly sizes the cases without excessive force.
  - Use the bullet seater die to seat bullets to the desired depth without crimping.
  - Use the crimp die to apply a crimp to the loaded cartridge as necessary.
3. **Maintenance:**
  - Clean the dies after each use to remove any debris or residues.
  - Store the die set in a safe, dry place when not in use.

## **Disposal Instructions**

- Dispose of all reloading components and packaging materials in accordance with local regulations.
- Do not dispose of used or damaged dies in regular household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or support related to the PROSERIES CARBIDE + G1298 DIE SETS, please refer to the contact information provided by your retailer or manufacturer.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience with your PROSERIES CARBIDE + G1298 DIE SETS 10mm Auto Carbide 3 Die Set. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention and happy reloading!
