

260 REMINGTON BRASS CASE - NORMA 260 REMINGTON BRASS 100/BAG

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

Norma Brass provides the serious reloader a premium grade, quality cartridge to reload. Norma Brass is bulk packed from the same lot. We try to keep a good supply of brass in inventory, but due to factory production and delivery delays, we may occasionally be out of some cartridges. Norma Brass is made to such exact standards that the cartridges typically include machined case heads, drilled (not punched) flash holes and close tolerance wall thickness.

Safety Instruction Guide for 260 Remington Brass Case

Introduction

Thank you for choosing the 260 Remington Brass Case from Norma. This product is designed for serious reloaders who seek highquality, premiumgrade brass for their reloading needs. To ensure your safety and the safe use of this product, please read and follow the guidelines outlined in this document.

General Safety Guidelines

- Always handle ammunition and reloading components with care.
- Store brass cases in a cool, dry place away from direct sunlight and moisture.
- Keep out of reach of children and unauthorized persons.
- Familiarize yourself with local laws and regulations regarding ammunition and reloading components.
- Regularly check for updates on product recalls and safety notices.

Specific Safety Precautions for Use

- Inspect all brass cases before use for any signs of damage or defects.
- Ensure that the reloading equipment you use is compatible with 260 Remington brass.
- Follow the manufacturer's instructions for your reloading equipment.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling brass and reloading materials.
- Do not exceed recommended load limits when reloading ammunition.
- Be aware of the risks associated with the use of smokeless powder and primers.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary reloading equipment, including dies, powder, primers, and tools.
- Ensure your workspace is clean and organized.

2. Inspect Brass:

- Check each 260 Remington brass case for signs of wear, such as cracks or deformities.
- Discard any damaged cases.

3. Resize and Deprime:

- Use a resizing die to resize the brass cases to the appropriate dimensions.
- Depress the cases using the appropriate tool.

4. Clean Cases:

- Clean the brass cases thoroughly to remove any debris or residue.
- Use a tumbler or ultrasonic cleaner as needed.

5. Prime Cases:

- Insert the appropriate primers into the primer pockets of each brass case.
- Ensure that the primers are seated properly.

6. **Charge Cases:**

- Carefully measure and add the correct amount of powder to each case.
- Avoid overcharging.

7. **Seat Bullets:**

- Place the bullets on top of the charged cases and use a bullet seating die to seat them to the correct depth.

8. **Final Inspection:**

- Inspect each completed round for consistency and quality.
- Store completed ammunition safely and securely.

Disposal Instructions

- Dispose of any damaged or defective brass cases in accordance with local regulations.
- Never dispose of brass cases or reloading components in a manner that could cause environmental harm.
- Contact local recycling programs to determine if brass can be recycled in your area.

Contact Information for Further Support

For safety inquiries or additional support regarding this product, please refer to the manufacturer's contact information provided on the packaging or the official website. It is important to have access to a reliable source for assistance and updates related to product safety.

Thank you for your attention to these safety guidelines. Enjoy your reloading experience with the 260 Remington Brass Case from Norma, and always prioritize safety in your reloading practices.
