

TAPER CRIMP HANDGUN DIES - HORNADY TAPER CRIMP DIE, 45 ACP

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Hornady Taper Crimp Die removes flare from the case mouth and crimps the case mouth around the bullet while maintaining a sharp edge for proper headspace. Improves feeding of reloaded cases in semiauto handguns.

Taper Crimp Handgun Dies Safety Instruction Guide

Introduction

Thank you for choosing the Hornady Taper Crimp Die, designed specifically for reloading 45 Auto (ACP) cartridges. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read and follow the instructions carefully to minimize risks associated with reloading ammunition.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading equipment.
- Keep the work area clean and organized to prevent accidents and ensure safe handling of materials.
- Store reloading supplies, including dies and components, in a secure location away from children and unauthorized individuals.
- Familiarize yourself with the reloading process and the specific functions of the Hornady Taper Crimp Die before use.
- Regularly inspect your equipment for wear or damage. Replace any damaged parts immediately.
- Ensure that your reloading press is properly secured and stable before use.
- Follow all manufacturer instructions and recommendations for the safe use of the Hornady Taper Crimp Die.

Specific Safety Precautions for Use

- Do not exceed recommended load data for the cartridges you are reloading.
- Avoid using the die with damaged or improperly sized cases, as this may lead to malfunction or accidents.
- Ensure that the die is correctly adjusted to avoid overcrimping, which can lead to dangerous pressure levels.
- When adjusting the die, do so gradually and check the results frequently to ensure proper crimping.
- Never attempt to modify the die or use it for purposes other than intended.
- Keep fingers and other body parts clear of the die's moving parts during operation to prevent injury.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is turned off and unplugged.
- Remove any existing die from the press and clean the threads to ensure a proper fit.
- Screw the Hornady Taper Crimp Die into the press until it is securely in place.
- Adjust the die according to the manufacturer's instructions, ensuring it is set to the correct depth for your specific cartridge.

2. Usage:

- Prepare your cases by cleaning and inspecting them for defects.
- Insert a case into the reloading press and raise the ram to the top position.
- Place a bullet into the case mouth and lower the ram to seat the bullet.
- Raise the ram again to crimp the case mouth using the Hornady Taper Crimp Die.
- Inspect the finished cartridge for proper crimp and overall integrity before use.

Disposal Instructions

- Dispose of any used or defective reloading components according to local regulations and guidelines.
- Do not dispose of hazardous materials in regular trash. Instead, contact local waste management authorities for proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please reach out to the designated EU contact point associated with this product. Ensure you have your product details and any relevant information ready for assistance.

By following these guidelines, you can ensure a safe and effective reloading experience with the Hornady Taper Crimp Die. Always prioritize safety and consult the relevant authorities for any concerns regarding product safety or recalls.
