

TYPE S BUSHING FULL DIES - 22 NOSLER TYPE S BUSHING FULL LENGTH DIE

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

Attributes

- Name: 22 NOSLER TYPE S BUSHING FULL LENGTH DIE
- Manufacturer: REDDING

Safety Instruction Guide for TYPE S BUSHING FULL DIES 22 NOSLER

Introduction

Thank you for choosing the TYPE S BUSHING FULL DIES 22 NOSLER. This product is designed for fulllength resizing of cartridge cases while maintaining precise control over the case neck. To ensure safe and effective use of this product, please read and follow the safety guidelines and instructions provided in this document.

General Safety Guidelines

- Always handle all reloading equipment with care and respect to prevent accidents.
- Ensure you are familiar with the operation of the die before use.
- Keep the work area clean and organized to avoid any hazards.
- Store the dies in a safe location, out of reach of children and pets.
- Use the product only for its intended purpose as described in the manual.
- Regularly inspect the dies for wear or damage before each use.
- If you notice any irregularities or malfunctions, stop using the product immediately and contact a qualified technician.

Specific Safety Precautions for Use

- Ensure that all components used in conjunction with the die, including the press and shell holder, are compatible and in good working condition.
- Wear appropriate eye protection when using the die to protect against potential debris.
- Always ensure that the bushing is securely attached before beginning the resizing operation.
- Avoid overtightening the bushing which may cause damage to the die or cartridges.
- Do not exceed the recommended load limits for your cartridges.
- Keep your hands clear of the die's moving parts during operation to prevent injury.
- Use caution when adjusting the decapping rod to avoid pinching fingers or hands.
- Follow the manufacturer's guidelines for the specific cartridge and bushing sizes being used.

Instructions for Installation and Usage

1. Installation

- Remove the die from its packaging and inspect it for any visible damage.
- Clean the die with a soft cloth to remove any manufacturing residue.
- Secure the die in your reloading press according to the manufacturer's instructions.
- Install the appropriate bushing for the cartridge being resized by following these steps:
 - Unscrew the bushing from the die.
 - Select the correct bushing size for your cartridge.
 - Screw the bushing back into the die until it is snug but not overly tight.

2. Usage

- Adjust the decapping rod to the desired position for resizing.
- Insert the cartridge case into the shell holder of the press.
- Raise the ram of the press slowly to engage the die with the cartridge case.
- Apply steady pressure to resize the case, ensuring that the bushing selfcenters on the neck of the cartridge.
- Once the resizing is complete, lower the ram and remove the cartridge case.
- Inspect the resized case for any signs of damage or irregularities before proceeding with reloading.

Disposal Instructions

- Dispose of any damaged or wornout dies according to local regulations.
- Follow local guidelines for recycling materials whenever possible.
- Do not dispose of the product in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the use of the TYPE S BUSHING FULL DIES 22 NOSLER, please refer to the manufacturer's website or customer service for assistance.

By following these safety instructions, you can help ensure a safe and effective reloading experience. Thank you for your attention to these guidelines, and happy reloading!
