

COMPETITION BUSHING NECK DIES - COMPETITION BUSHING NECK DIE 22 NOSLER

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

COMPETITION BUSHING NECK DIES SAFETY INSTRUCTIONS

Introduction

Thank you for purchasing the COMPETITION BUSHING NECK DIE 22 NOSLER. This product is designed for precision reloading of 22 Nosler cartridges, ensuring optimal performance for competition shooting. It is essential to follow safety guidelines and instructions to ensure safe and effective use.

General Safety Guidelines

- Always read and understand the product manual before use.
- Use the die only for its intended purpose of resizing 22 Nosler cartridge cases.
- Keep the die and all related equipment out of reach of children and pets.
- Inspect the die and accessories for damage before each use. Do not use damaged components.
- Wear appropriate safety gear, such as safety glasses and gloves, when handling reloading equipment.
- Store the die in a dry, secure location to prevent damage and unauthorized access.

Specific Safety Precautions for Use

- Ensure that your workspace is clean and free from distractions.
- Follow all manufacturer instructions for setup and operation.
- Do not exceed recommended resizing limits; oversizing may lead to dangerous conditions.
- Be aware of the potential for sharp edges on the die and components. Handle with care.
- If you experience any unusual resistance during the resizing process, stop immediately and inspect the die and cartridge case.
- Use only compatible bushings and shellholders as specified by the manufacturer.
- Never modify the die or its components; alterations can lead to unsafe conditions.

Instructions for Installation and Usage

1. Installation:

- Secure the die in the reloading press according to the manufacturer's instructions.
- Ensure that the die is properly aligned and tightened to prevent movement during use.
- Select and install the appropriate sizing bushing for 22 Nosler cartridges.

2. Usage:

- Insert a clean, empty cartridge case into the die.
- Slowly raise the ram of the reloading press to engage the cartridge case with the sizing bushing.
- Allow the resizing bushing to self-center on the case neck as the ram moves upward.
- Lower the ram to remove the resized cartridge case from the die.
- Repeat the process for additional cases, ensuring that each case is properly supported during resizing.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.
- Do not dispose of the die in regular household waste. Contact local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's website or contact their customer service department directly.

By following these guidelines and safety instructions, you can ensure a safe and effective reloading experience with the COMPETITION BUSHING NECK DIE 22 NOSLER. Thank you for prioritizing safety in your reloading practices.
