

7-30 WATERS BRASS 50/BOX

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

At Hornady,® brass is the foundation for what could be the most memorable shot of your lifetime. Extra time and care is taken in the creation of their cases, producing smaller lots that meet strict quality standards. Their cases offer reloaders excellent uniformity in wall thickness, weight and internal capacity. They measure for consistently tight wall concentricity and even run our cases through a pressure calibration test to ensure uniform case expansion during firing. Their cases allow proper seating of the bullet, not only in the case, but in the chamber as well. High quality brass contributes to consistent charges and pressures. Product Features TIGHT WALL CONCENTRICITY Concentricity helps to ensure proper bullet seating in both the case and the chamber of your firearm. Higher concentricity also aids in a uniform release of the bullet on firing, for optimal velocity and accuracy. UNIFORM CASE WALL THICKNESS Benchrest shooters have long known that uniform case wall thickness is vital to accuracy. We manufacture to extremely tight tolerances to ensure this critical element is as consistent as possible. MORE RELOADS PER CASE We treat Hornady brass as the foundation for an accurate cartridge, not a commodity. Because we take greater care in its creation you'll get more reloads from Hornady brass. CONSISTENT WEIGHT AND CAPACITY Every single Hornady case, regardless of the lot in which it was produced, is virtually identical to other Hornady cases in the same caliber. For you, this means consistent pressures, velocity and accuracy — every time.

Safety Instruction Guide for 730 Waters Brass

Introduction

Thank you for choosing Hornady 730 Waters Brass. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this guide carefully before using the brass, and keep it for future reference.

General Safety Guidelines

- Always treat all brass cases as if they are loaded.
- Store brass in a cool, dry place away from direct sunlight to prevent degradation.
- Inspect brass cases for any signs of damage or wear before use.
- Use only the recommended reloading data for 730 Waters to ensure safe and effective performance.
- Follow all local laws and regulations regarding the use of ammunition components.

Specific Safety Precautions for Use

- Ensure that your firearm is compatible with 730 Waters brass before use.
- Do not exceed recommended load limits, as this can lead to dangerous pressures.
- Always wear safety glasses when reloading or handling ammunition to protect your eyes.
- Keep your work area clean and organized to avoid accidents.
- Be cautious of hot brass after firing; it can cause burns.
- Avoid distractions while reloading to maintain focus and safety.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components for reloading.
- Ensure that your workspace is clean and free from clutter.

2. Inspection:

- Examine each brass case for cracks, dents, or other damage.
- Discard any damaged cases to prevent malfunctions.

3. Reloading:

- Follow the reloading manual for the 730 Waters cartridge.
- Use a scale to measure powder charges accurately.
- Seat bullets properly to ensure they are flush with the case mouth.
- Check for proper crimping to prevent bullet movement during firing.

4. Firing:

- Load the brass into your firearm following the manufacturer's instructions.
- Confirm that the firearm is in good working condition before firing.
- Always point the firearm in a safe direction when loading or unloading.

5. PostFiring:

- Allow brass cases to cool before handling.
- Clean brass cases after use to maintain performance and longevity.
- Store used brass separately from new brass.

Disposal Instructions

- Dispose of damaged or unusable brass cases in accordance with local regulations.
- Do not discard brass cases in regular household waste.
- Check with local recycling centers to see if they accept brass for recycling.

Contact Information for Further Support

For any inquiries or additional information regarding safety or product performance, please contact Hornady directly through their official channels. They can provide further assistance and answer any questions you may have.

By following these guidelines, you can ensure the safe use of Hornady 730 Waters Brass. Always prioritize safety and be aware of your surroundings while handling ammunition components. Thank you for your attention to these important safety instructions.
