

AR-15/M16 BOLT EJECTOR TOOL - YOUNG MFG AR-15/M16 BOLT EJECTOR TOOL

[Gunsmith Tools](#) > [Rifle Tools](#) > [Bolt Tools](#) > [Ejector Tools](#)

Safe, Effective Bolt Maintenance, Prevents Loss Of Parts

Aluminum fixture securely cradles bolt and prevents flying parts. Threaded steel shank captures and compresses ejector spring and aligns roll pin for easy removal with punch, loosens gradually to relieve spring tension. Works equally well for bolt assembly. Compact and light enough to take to the field. A must for all AR shooters.

Attributes

- Name: [YOUNG MFG AR-15/M16 BOLT EJECTOR TOOL](#)

Safety Instruction Guide for AR15/M16 Bolt Ejector Tool

Introduction

Thank you for choosing the AR15/M16 Bolt Ejector Tool by Young MFG. This tool is designed to assist with the safe and efficient removal and installation of the bolt ejector in your AR15 or M16 firearm. Please read this safety instruction guide carefully to ensure safe usage and compliance with EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always use the tool in accordance with the manufacturer's instructions.
- Inspect the tool before each use to ensure it is in good working condition.
- Keep the tool out of reach of children and unauthorized users.
- Use the tool only for its intended purpose; do not modify it or use it in any way that is not recommended.
- Report any unsafe conditions or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before using the tool.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Do not place your hands or face near the area where the ejector spring is compressed.
- Use caution when handling small parts, as they can be easily lost or cause injury if handled improperly.
- Ensure that the tool is used on a stable surface to prevent slipping or accidents.
- Only use the tool in a welllit area to ensure visibility and accuracy during use.

Instructions for Installation and Usage

1. Preparation:

- Confirm that the firearm is completely unloaded.
- Gather all necessary tools and materials, including the AR15/M16 Bolt Ejector Tool.

2. Using the Tool:

- Place the bolt in the aluminum fixture of the tool. Ensure it is securely cradled.
- Align the ejector spring with the threaded steel shank of the tool.
- Gradually tighten the shank to capture and compress the ejector spring.
- Once the spring is compressed, align the roll pin with the punch for easy removal.
- To relieve spring tension, loosen the shank gradually while ensuring no parts are under tension.

3. Bolt Assembly:

- The tool can also be used for bolt assembly. Follow similar steps as above, ensuring all components are aligned correctly.

4. PostUse:

- After use, inspect the tool for any signs of wear or damage.
- Clean the tool as needed to maintain its condition.

Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- If the tool is damaged or no longer usable, consider recycling materials where possible.
- Do not dispose of the tool in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any safety inquiries or additional support regarding the AR15/M16 Bolt Ejector Tool, please contact the manufacturer or your local distributor. Ensure that you have the product information at hand for a more efficient response.

Thank you for your attention to these safety instructions. Your safety and the safety of others depend on the proper use of this tool.
