

LR-SKEL EXTENDED SKELETONIZED MSR MOUNTS - 30MM ULTRA HIGH (1.435") 20 MOA MOUNT, TACTICAL GRAY

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The LR-SKEL Mount offers 20 MOA built-in slope for long range precision shooting. This allows additional elevation adjustment in your optic when shooting ranges over 600 yards. The LR-SKEL Mount is CNC precision machined from 6061 aluminum and Warne has been able to reduce the weight by over 30%, compared to our R.A.M.P. Mount by utilizing a skeletonized body and ring caps. The LR-SKEL provides an additional inch of forward cantilever, compared to the original SKEL Mount to provide proper eye relief when using scopes with large eye boxes and gives extra space behind the mount for accessories like the Warne A645 45° side mount adapter.

Attributes

- Name: [30MM ULTRA HIGH \(1.435"\) 20 MOA MOUNT, TACTICAL GRAY](#)
- Manufacturer: [WARNE MFG. COMPANY](#)
- Product no.: 947000374

Safety Instruction Guide for LRSKEL Extended Skeletonized MSR Mounts

Introduction

Thank you for purchasing the LRSKEL Extended Skeletonized MSR Mount. This guide provides essential safety instructions and guidelines to ensure the safe use and installation of your product. Please read this document carefully before using the mount.

General Safety Guidelines

- Always ensure that the mount is compatible with your firearm and optic before installation.
- Inspect the mount for any signs of damage or defects before use.
- Keep the mount out of reach of children and vulnerable individuals.
- Do not use the mount if it has been altered or modified in any way.
- Follow all local laws and regulations regarding the use of firearm accessories.

Specific Safety Precautions for Use

- Ensure that the mount is securely attached to your firearm before use.
- Always use appropriate eye and ear protection when shooting.
- Be aware of your surroundings and ensure a safe shooting environment.
- Avoid using the mount in extreme weather conditions that may affect its performance.
- Regularly check the mount for tightness and stability, especially after heavy use.

Instructions for Installation and Usage

1. Installation

- Gather all necessary tools, including a torque wrench, to ensure proper installation.
- Remove the existing mount (if applicable) from your firearm.
- Align the LRSKEL Mount with the mounting points on your firearm.
- Secure the mount using the provided screws, ensuring they are tightened to the manufacturer's specifications.
- Verify that the mount is level and properly aligned with your optic.

2. Usage

- Once installed, attach your optic to the mount, following the manufacturer's instructions for your specific scope.
- Adjust the mount as needed to achieve the desired eye relief and shooting position.
- Test the setup at a safe shooting range to ensure proper functionality and alignment.

Disposal Instructions

- Dispose of the mount and any packaging materials in accordance with local regulations.
- Do not dispose of the mount in general waste if it is damaged or deemed unsafe.
- Consider recycling materials where possible to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the LRSKEL Extended Skeletonized MSR Mount, please refer to the

manufacturer's website or contact their customer service for assistance.

Thank you for prioritizing safety and compliance while using the LRSKEL Mount. Your responsible use contributes to a safer shooting environment for everyone.
