

SCOPE RING TORQUE WRENCH - 1/4 DRIVE 65IN/LB TORQUE WRENCH

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Wrenches](#) > [General Wrenches](#)

Helps Prevent Dented & Damaged Scopes

Puts an end to the “How tight do I make it” question. Helps prevent over-torque damage to your favorite scope. Break away torque wrench is pre-set and will not tighten T15 Torx screws tighter than 25 in. lbs., which is the maximum recommended by most scope and scope ring manufactures. T-handle design is conveniently shaped to comfortably fit in the palm of your hand; simply engage the tip to the Torx screw, and tighten until the wrench “breaks away.”

Attributes

- Name: [1/4 DRIVE 65IN/LB TORQUE WRENCH](#)
- Manufacturer: [WARNE MFG. COMPANY](#)
- Product no.: 947000616
- Mfr. No.: TW65

Safety Instruction Guide for SCOPE RING TORQUE WRENCH 1/4 DRIVE 65IN/LB TORQUE WRENCH

Introduction

Thank you for choosing the SCOPE RING TORQUE WRENCH 1/4 DRIVE 65IN/LB. This tool is designed to help you achieve the correct torque when securing T15 Torx screws on your scope, ensuring optimal performance and preventing damage. This safety instruction guide provides essential information for the safe use and maintenance of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instruction manual before using the torque wrench.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use to ensure it is in good working condition.
- Do not use the torque wrench for purposes other than those specified in this guide.
- Report any accidents or unsafe conditions to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the torque wrench is set to the correct torque level (maximum of 25 in. lbs.) before use.
- Do not exceed the maximum torque setting to avoid overtorque damage.
- Always use the wrench with a firm grip to maintain control during operation.
- Avoid using the wrench in wet or damp conditions to prevent slipping.
- Do not modify the wrench or use it for any application other than tightening T15 Torx screws.

Instructions for Installation and Usage

1. Preparation:

- Confirm that the torque wrench is clean and free from any debris.
- Ensure that the T15 Torx screws you will be tightening are accessible.

2. Setting the Torque:

- The wrench is preset to a maximum of 25 in. lbs. and will not allow you to tighten beyond this limit. No additional adjustment is necessary.

3. Using the Torque Wrench:

- Hold the wrench by the Thandle, ensuring a comfortable grip.
- Position the tip of the wrench onto the T15 Torx screw.
- Apply pressure to tighten the screw until you feel the wrench "break away," indicating that the maximum torque has been reached.
- Do not continue to apply pressure once the wrench has broken away.

4. PostUse Care:

- After use, clean the wrench to remove any dirt or residue.
- Store the torque wrench in a dry and secure location to prevent damage.

Disposal Instructions

- When the torque wrench reaches the end of its life or is no longer usable, dispose of it in accordance with local regulations.
- Do not dispose of the wrench in regular household waste. Check for recycling options or designated disposal sites for tools.

Contact Information for Further Support

For any safety inquiries or support regarding the SCOPE RING TORQUE WRENCH, please contact the manufacturer directly. Ensure you have the product details available for reference.

By following these guidelines, you can ensure the safe and effective use of the SCOPE RING TORQUE WRENCH 1/4 DRIVE 65IN/LB. Thank you for prioritizing safety and responsible tool usage.
