

# LR-SKEL EXTENDED SKELETONIZED MSR MOUNTS - WARNE MFG. COMPANY 34MM ULTRA HIGH (1.435") 20 MOA MOUNT, BLACK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The LR-SKEL Mount offers 20 MOA built-in slope for long range precision shooting. This allows additional elevation adjustment in your optic when shooting ranges over 600 yards. The LR-SKEL Mount is CNC precision machined from 6061 aluminum and Warne has been able to reduce the weight by over 30%, compared to our R.A.M.P. Mount by utilizing a skeletonized body and ring caps. The LR-SKEL provides an additional inch of forward cantilever, compared to the original SKEL Mount to provide proper eye relief when using scopes with large eye boxes and gives extra space behind the mount for accessories like the Warne A645 45° side mount adapter.

## Attributes

- Name: [WARNE MFG. COMPANY 34MM ULTRA HIGH \(1.435"\) 20 MOA MOUNT, BLACK](#)
- Manufacturer: [WARNE MFG. COMPANY](#)

## Safety Instructions

### Introduction

Thank you for choosing the LRSKEL Extended Skeletonized MSR Mount from Warne MFG. Company. This product is designed for longrange precision shooting and offers enhanced features for optimal performance. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

### General Safety Guidelines

- Always ensure the mount is securely attached to your firearm before use.
- Regularly inspect the mount for signs of wear, damage, or loose components.
- Follow all local laws and regulations regarding firearm accessories.
- Keep the mount and all related equipment out of reach of children and unauthorized users.
- Use the mount only as intended and according to the manufacturer's instructions.
- Be aware of your surroundings and ensure a safe shooting environment.

### Specific Safety Precautions for Use

- **Weight Limit:** Ensure that your optic does not exceed the weight limit specified by the manufacturer for the mount.
- **Compatibility:** Confirm that the LRSKEL Mount is compatible with your firearm and optic before installation.
- **Proper Eye Relief:** Adjust the mount to ensure proper eye relief, particularly when using scopes with large eye boxes.
- **Shooting Distance:** Use the mount's builtin 20 MOA slope for distances greater than 600 yards, ensuring that your optic is appropriately adjusted.
- **Accessory Use:** When using additional accessories, such as the Warne A645 45° side mount adapter, ensure that they do not obstruct the safe operation of the firearm.

### Instructions for Installation and Usage

#### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Place the LRSKEL Mount on the firearm's rail, aligning it with the desired mounting position.
- Secure the mount using the provided screws, ensuring they are tightened to the manufacturer's specifications.
- Attach your optic to the mount, following the manufacturer's instructions for your specific scope.

#### 2. Usage:

- Before shooting, doublecheck that the mount and optic are securely attached.
- Adjust the elevation and windage settings on your optic as necessary for your shooting conditions.
- Regularly check the mount for tightness and integrity during use, especially after extended shooting sessions.

### Disposal Instructions

- Dispose of the LRSKEL Mount according to local regulations for aluminum and metal products.
- Do not dispose of the mount in regular household waste. Instead, take it to a designated recycling facility.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or product support, please refer to the manufacturer's contact details provided on the product packaging or the Warne MFG. Company website.

## **Conclusion**

By following these safety instructions, you can ensure a safe and enjoyable experience with your LRSKEL Extended Skeletonized MSR Mount. Always prioritize safety and adhere to all guidelines for responsible firearm use.
