

LR-SKEL EXTENDED SKELETONIZED MSR MOUNTS - 1" ULTRA HIGH (1.435") 0 MOA MOUNT, TACTICAL GRAY

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The LR-SKEL Mount offers 20 MOA built-in slope for long range precision shooting. This allows additional elevation adjustment in your optic when shooting ranges over 600 yards. The LR-SKEL Mount is CNC precision machined from 6061 aluminum and Warne has been able to reduce the weight by over 30%, compared to our R.A.M.P. Mount by utilizing a skeletonized body and ring caps. The LR-SKEL provides an additional inch of forward cantilever, compared to the original SKEL Mount to provide proper eye relief when using scopes with large eye boxes and gives extra space behind the mount for accessories like the Warne A645 45° side mount adapter.

Attributes

- Name: [1" ULTRA HIGH \(1.435"\) 0 MOA MOUNT, TACTICAL GRAY](#)
- Manufacturer: [WARNE MFG. COMPANY](#)

LRSKEL Extended Skeletonized MSR Mounts

Safety Instructions

Introduction

Thank you for choosing the LRSKEL Extended Skeletonized MSR Mount. This document provides essential safety instructions to ensure the safe use and installation of your product. Please read this guide carefully before using the mount to avoid any potential hazards.

General Safety Guidelines

- Ensure that the LRSKEL Mount is compatible with your firearm and optic before installation.
- Always follow local laws and regulations regarding firearm accessories.
- Keep the mount and all accessories out of reach of children and unauthorized users.
- Regularly inspect the mount for any signs of wear or damage before each use.
- If you notice any damage or malfunction, discontinue use immediately and seek professional assistance.

Specific Safety Precautions for Use

- Always ensure that your firearm is unloaded before attaching or detaching the mount.
- Use appropriate tools and follow the installation instructions carefully to avoid injury or damage.
- Make sure the mount is securely fastened to prevent it from loosening during use.
- Avoid using the mount in extreme weather conditions that may affect its performance.
- Do not exceed the weight limit specified by the manufacturer for the mounted optic and accessories.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
- Ensure that your workspace is clean and free of distractions.

2. Installation of the Mount

- Ensure your firearm is unloaded.
- Locate the mounting points on your firearm.
- Align the LRSKEL Mount with the mounting points.
- Secure the mount using the provided screws.
- Use a torque wrench to tighten the screws to the manufacturer's recommended specifications.
- Doublecheck the alignment and security of the mount.

3. Attaching the Optic

- Following the optic manufacturer's instructions, attach your optic to the LRSKEL Mount.
- Ensure that the optic is securely fastened and properly aligned for optimal use.

4. Final Checks

- Inspect the installation to ensure there are no loose components.
- Test the mount by gently shaking the firearm to ensure the mount remains secure.

Disposal Instructions

- Dispose of the LRSKEL Mount and any packaging materials in accordance with local regulations.
- Do not dispose of the mount in regular household waste if it is damaged or contains hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the LRSKEL Extended Skeletonized MSR Mount, please refer to the manufacturer's contact information provided with your product. Always ensure that you have the latest information regarding safety recalls or updates.

Conclusion

By following these safety instructions, you can ensure safe and effective use of the LRSKEL Extended Skeletonized MSR Mount. Always prioritize safety and compliance with local laws to enjoy your shooting experience responsibly. Thank you for your attention to these important guidelines.
