

LR-SKEL EXTENDED SKELETONIZED MSR MOUNTS - 30MM ULTRA HIGH (1.435") 0 MOA MOUNT, TACTICAL GRAY

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The LR-SKEL Mount offers 20 MOA built-in slope for long range precision shooting. This allows additional elevation adjustment in your optic when shooting ranges over 600 yards. The LR-SKEL Mount is CNC precision machined from 6061 aluminum and Warne has been able to reduce the weight by over 30%, compared to our R.A.M.P. Mount by utilizing a skeletonized body and ring caps. The LR-SKEL provides an additional inch of forward cantilever, compared to the original SKEL Mount to provide proper eye relief when using scopes with large eye boxes and gives extra space behind the mount for accessories like the Warne A645 45° side mount adapter.

Attributes

- Name: [30MM ULTRA HIGH \(1.435"\) 0 MOA MOUNT, TACTICAL GRAY](#)
- Manufacturer: [WARNE MFG. COMPANY](#)

Safety Instruction Guide for LRSKEL Extended Skeletonized MSR Mounts

Introduction

Thank you for choosing the LRSKEL Extended Skeletonized MSR Mount. This guide provides essential safety instructions to ensure the proper use and handling of your mount. Please read through this guide carefully before installation and use.

General Safety Guidelines

- Ensure safe use of the LRSKEL Mount by following these guidelines:
 - Always handle the mount with care to avoid drops or impacts.
 - Inspect the mount regularly for any signs of wear or damage.
 - Use the mount only for its intended purpose as specified by the manufacturer.
 - Keep the mount out of reach of children and vulnerable individuals.
 - Follow all local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- Before using the LRSKEL Mount, please consider the following precautions:
 - Ensure that your optic is compatible with the mount specifications before installation.
 - Verify that the mount is securely attached to the firearm before use.
 - Use appropriate tools for installation to avoid damaging the mount or firearm.
 - Do not exceed the weight limit specified for the mount to prevent failure.
 - Avoid using the mount in extreme environmental conditions that may affect its performance.

Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the LRSKEL Mount:

1. Preparation

- Gather necessary tools: a torque wrench, appropriate Allen keys, and a clean workspace.
- Ensure that the firearm is unloaded and pointed in a safe direction.

2. Installation

- Align the LRSKEL Mount with the mounting points on your firearm.
- Secure the mount using the provided screws. Do not overtighten.
- Use a torque wrench to achieve the recommended torque settings as specified in the product manual.

3. Optic Installation

- Attach your optic to the mount, ensuring proper alignment.
- Follow the optic manufacturer's instructions for secure attachment.

4. Final Checks

- Doublecheck all screws and attachments for security.
- Test the mount by gently shaking the firearm to ensure stability.

Disposal Instructions

- When disposing of the LRSKEL Mount, please follow these guidelines:
 - Do not dispose of the mount in regular household waste.
 - Check local regulations for disposal of aluminum and metal products.
 - Consider recycling the mount to minimize environmental impact.

Contact Information for Further Support

For further assistance or inquiries regarding the LRSKEL Mount, please refer to the manufacturer's contact information provided with your product packaging.

Conclusion

Proper handling and installation of the LRSKEL Extended Skeletonized MSR Mount are essential for safe and effective use. By following this safety instruction guide, you can help ensure a secure and enjoyable shooting experience. Thank you for your attention to safety.
