

## E-Max Electronic Hearing Protection

The Caldwell E-Max Electronic Earmuffs combine great circuitry with a low-profile ear cup that is ideal for shotgun shooters and action shooters. The two microphones in the E-Max amplify sounds below 85 decibels, which amplifies normal communication, range commands and environmental sounds. Above 85 decibels, the microphones shut off to protect the shooter's hearing. Ear cup width is 1.75 inches and two AAA batteries are required but not included. Enabled with one stereo microphone in each cup, the user can localize sound from all directions.

## Safety Instructions

### Introduction

Thank you for choosing the Caldwell EMax Electronic Hearing Protection. These earmuffs are designed to protect your hearing while allowing you to communicate effectively in shooting environments. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

### General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Regularly inspect the earmuffs for any signs of damage or wear.
- Keep the earmuffs out of reach of children and vulnerable individuals.
- Do not use the product if it is damaged or malfunctioning.
- Always follow the manufacturer's instructions for use and maintenance.
- Report any unsafe products or incidents to the appropriate authorities.

### Specific Safety Precautions for Use

- **Hearing Protection:** The EMax earmuffs are designed to protect against sounds above 85 decibels. Always ensure they are worn correctly during shooting activities.
- **Battery Safety:** Use only two AAA batteries as specified. Do not mix old and new batteries or different brands.
- **Environmental Awareness:** Be aware of your surroundings when using the earmuffs. While they amplify low sounds, they also protect against sudden loud noises.
- **Fit and Comfort:** Adjust the earmuffs for a snug fit to ensure optimal performance and comfort during use.
- **Communication:** The earmuffs allow for normal conversation levels. Ensure that the microphones are functioning correctly to facilitate communication.

### Instructions for Installation and Usage

#### 1. Installation of Batteries:

- Open the battery compartment located on the earmuff.
- Insert two AAA batteries, ensuring the correct polarity (+ and -) is observed.
- Close the battery compartment securely.

#### 2. Wearing the Earmuffs:

- Place the earmuffs over your ears, ensuring a snug fit.
- Adjust the headband for comfort and secure positioning.
- Make sure that the ear cups fully cover your ears.

#### 3. Using the Earmuffs:

- Turn on the earmuffs using the power switch.
- Speak normally to utilize the amplification feature.
- Be aware of the automatic shutoff feature that activates when sounds exceed 85 decibels.

#### 4. Regular Maintenance:

- Clean the earmuffs with a damp cloth to remove dirt and sweat.
- Store the earmuffs in a cool, dry place when not in use.

## **Disposal Instructions**

- Dispose of the earmuffs in accordance with local regulations.
- Remove batteries before disposal to prevent environmental contamination.
- Recycle the batteries at designated recycling points.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Caldwell EMax Electronic Hearing Protection, please refer to the manufacturer's contact information provided in the product packaging or visit the manufacturer's website for support resources.

By following these safety instructions, you can ensure a safe and enjoyable experience while using the Caldwell EMax Electronic Hearing Protection. Thank you for prioritizing your hearing health and safety.
