

E-Max Low Profile Electronic Hearing Protection - E-Max Low Profile Electronic Hearing Protection - Pink

The Pink Low-Profile E-Max® hearing protection combine great circuitry with a low profile earcup that's ideal for shotgun shooters and action shooters. The two microphones in the E-Max® amplify sounds below 85 decibels, which amplifies normal communication, range commands, and environmental sounds. Above 85 decibels, the microphones shut off for a split second to protect the shooter's hearing. Two microphones - one in each cup - give the user true stereo sound and allow the user to identify the directional source of a sound. Includes an integrated audio input jack allowing music to be played. Runs on 2 AAA batteries (not included). 23NRR

Safety Instruction Guide for Caldwell EMax Low Profile Electronic Hearing Protection Pink

Introduction

Thank you for choosing the Caldwell EMax Low Profile Electronic Hearing Protection in Pink. This product is designed to protect your hearing while allowing you to communicate effectively in shooting environments. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always ensure that the hearing protection is properly fitted before use.
- Use the product only for its intended purpose as described in this guide.
- Keep the product away from children and vulnerable individuals when not in use.
- Regularly inspect the product for any signs of damage or wear.
- In case of any malfunction or damage, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Do not expose the hearing protection to extreme temperatures or moisture.
- Ensure that the microphones are not obstructed during use to maintain sound amplification.
- Avoid using the product in environments with sound levels above 85 decibels for extended periods.
- Do not use the hearing protection while engaging in activities that require full auditory awareness, such as driving.
- If you experience discomfort or any hearing issues while using the product, stop using it and consult a professional.

Instructions for Installation and Usage

1. Battery Installation:

- Open the battery compartment located on the hearing protection.
- Insert 2 AAA batteries (not included) ensuring correct polarity (+/-).
- Close the battery compartment securely.

2. Fitting the Ear Cups:

- Place the ear cups over your ears, ensuring a snug fit.
- Adjust the headband for comfort without compromising the seal around your ears.

3. Adjusting Sound Settings:

- Turn on the device using the power switch.
- Use the volume controls to adjust the amplification level to your preference.
- Ensure that the microphones are functioning properly by testing with normal conversation.

4. Using the Audio Input Jack:

- Connect your audio device to the integrated audio input jack.
- Adjust the volume on both the audio device and the hearing protection for optimal sound quality.

5. After Use:

- Turn off the device to conserve battery life.

- Store the hearing protection in a cool, dry place away from direct sunlight.

Disposal Instructions

- Dispose of the product in accordance with local regulations for electronic waste.
- Remove the batteries before disposal and recycle them according to local guidelines.
- Do not dispose of the product in household waste.

Contact Information for Further Support

For any questions or concerns regarding the Caldwell EMax Low Profile Electronic Hearing Protection, please refer to the manufacturer's contact point provided on the packaging or product documentation.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy your shooting experience with the Caldwell EMax Low Profile Electronic Hearing Protection!
