

Electric Fillet Knives - Electric Fillet Knife Blade, Thin Profile, 9"

[Emergency & Survival Gear](#) > [Knives](#)

This 9" E-FLEX replacement Blade fits both our 110V Electric Fillet Knife and Cordless Lithium Ion Electric Fillet Knife. It's made of a High Carbon Stainless Steel and chemically bonded with a ti-nitride coating to be extremely corrosion resistant. The 9" blade serrated edge and apposing bidirectional blades make filleting medium to large size fish effortlessly.

BUBBA Electric Fillet Knife Safety Instructions

Introduction

Thank you for choosing the BUBBA Electric Fillet Knife with a 9" EFLEX replacement blade. This guide provides essential safety instructions to ensure the safe use and maintenance of your knife. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the knife is used only for its intended purpose: filleting fish.
- Always keep the knife out of reach of children and vulnerable individuals.
- Inspect the knife for any damage before use. Do not use if damaged.
- Use the knife in a welllit area to avoid accidents.
- Always handle the knife with care, as the blade is sharp and can cause injury.
- Store the knife in a safe place when not in use, preferably in a protective sheath or case.
- Follow all local regulations regarding the use of electric knives.

Specific Safety Precautions for Use

- Before plugging in the knife, ensure that your hands are dry to prevent electric shock.
- Do not immerse the electric knife in water or any other liquids.
- Avoid using the knife near flammable materials or in wet conditions.
- Do not attempt to disassemble or repair the knife yourself. Contact a qualified technician for repairs.
- Always unplug the knife when not in use or before cleaning.
- Use caution when changing blades to avoid cuts or injuries.

Instructions for Installation and Usage

1. Installation:

- Ensure that the knife is unplugged.
- If replacing the blade, press the release button and carefully remove the old blade.
- Align the new blade with the slots and push it into place until it clicks securely.
- Ensure that the blade is firmly attached before plugging in the knife.

2. Usage:

- Plug the knife into a compatible electrical outlet.
- Hold the knife firmly by the handle, ensuring a secure grip.
- Position the blade at the desired angle to the fish and apply gentle pressure to begin filleting.
- Use smooth, consistent motions to achieve even cuts.
- If the knife becomes difficult to operate, unplug it immediately and check for any obstructions or damage.

3. Cleaning:

- After use, unplug the knife and allow it to cool.
- Clean the blade with warm, soapy water and a soft cloth. Do not immerse the knife in water.
- Dry the blade thoroughly before storing.
- Avoid using abrasive cleaners or scrubbers that may damage the blade.

Disposal Instructions

- Dispose of the knife responsibly in accordance with local regulations.
- If the knife is no longer usable, ensure that the blade is securely covered to prevent accidental injury during disposal.
- Consider recycling options for the materials if available in your area.

Contact Information for Further Support

For any safety inquiries or further assistance regarding your BUBBA Electric Fillet Knife, please reach out to the designated EUbased contact point provided with your product packaging.

Thank you for your attention to these safety instructions. Enjoy using your BUBBA Electric Fillet Knife responsibly and safely!
