

5 ft. Extendable Tree Saw (1001)

[Gunsmith Tools & Supplies](#) > [Power Tools & Accessories](#) > [Carbide Slitting Saws](#)

The Hooyman MegaBite Saws use a high carbon SK5 steel in a tapered blade design, with an impulse hardened 4-edge tooth. This improves tooth geometry for unmatched cutting performance and a longer cutting life. MegaBite handsaws provide two locking positions for use in a standard cutting position and hyper extended position to provide a wide variety of cutting methods.

Hooyman 5 ft. Extendable Tree Saw (1001) Safety Instruction Guide

Introduction

Thank you for choosing the Hooyman 5 ft. Extendable Tree Saw (1001). This guide provides essential safety instructions and usage guidelines to ensure a safe and effective experience with your new tree saw. Please read this manual carefully before using the product.

General Safety Guidelines

- Always use the tree saw in accordance with the manufacturer's instructions.
- Inspect the saw before each use for any signs of damage or wear. Do not use if damaged.
- Keep the saw out of reach of children and pets when not in use.
- Wear appropriate personal protective equipment (PPE) such as gloves, safety glasses, and sturdy footwear while using the saw.
- Ensure that the area around you is clear of obstacles and bystanders before starting your work.
- Be aware of your surroundings and any potential hazards, including overhead power lines, uneven terrain, and unstable branches.

Specific Safety Precautions for Use

- Use the saw only for its intended purpose: cutting branches and limbs.
- Do not attempt to cut materials other than wood, as this may damage the blade and pose a safety risk.
- Always use both hands to operate the saw for maximum control and stability.
- When extending the pole, ensure it is securely locked in place before use.
- Avoid using the saw in wet or slippery conditions to prevent loss of control.
- Do not overreach while using the saw; maintain a balanced stance at all times.
- If the saw becomes stuck, do not force it out. Instead, carefully reposition and try again.

Instructions for Installation and Usage

1. Unboxing and Inspection:

- Remove the tree saw from its packaging.
- Inspect all components for any signs of damage.

2. Extending the Pole:

- To extend the pole, unlock the locking mechanism by pulling it back.
- Extend the pole to the desired length (up to 5 feet) and securely lock it back in place.

3. Using the Saw:

- Position the saw at the desired cutting angle.
- Begin cutting with a steady, even motion. Avoid forcing the saw through the material.
- For hyper extended positions, ensure the locking mechanism is securely engaged.

4. Collapsing the Pole:

- After use, unlock the mechanism and collapse the pole back to its compact size (12 inches) for storage.
- Store the saw in a dry place away from direct sunlight.

Disposal Instructions

- When the saw has reached the end of its usable life, dispose of it in accordance with local regulations.
- Do not dispose of the saw in regular household waste. Check for recycling options for metal and plastic components.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please refer to the manufacturer's website or customer service for assistance.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and effective experience with your Hooyman 5 ft. Extendable Tree Saw.
