

# Venom Red Dot 6 MOA

[Optics & Mounting](#) > [Electronic Sights](#) > [Reflex Sights](#)

With the 6 MOA Vortex Venom Reflex Sight, you can quickly and easily acquire targets at a variety of ranges. The 6MOA Vortex Venom Reflex Sight comes with fully multi-coated lens that offer a clean, wide field of view, while the 6MOA dot is easy to see in any light and provides pinpoint accuracy. Sporting a low profile, durable aluminum housing, the 6 MOA Vortex Venom Reflex Sight is waterproof, shock-resistant and built to withstand heavy recoil. Power and dot intensity controls are conveniently located on the left side of the unit for easy operation.

Flush 1 MOA windage and elevation adjustments on the 6 MOA Vortex Venom Reflex Sight are super sleek and make sighting in a breeze. Topside battery access means you don't have to remove the sight from the gun and lose zero to change the battery.

# VORTEX OPTICS Venom Red Dot Safety Instruction Guide

## Introduction

Thank you for choosing the VORTEX OPTICS Venom Red Dot 6 MOA. This guide provides essential safety instructions and usage information to ensure the safe operation of your reflex sight. Please read this manual carefully before using the product to maximize safety and performance.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the sight with care to avoid damage.
- Keep the sight away from children and vulnerable individuals.
- Regularly inspect the sight for any signs of damage or wear.
- If you notice any damage, discontinue use immediately and consult a professional.
- Always follow local laws and regulations regarding the use of firearms and optical sights.

## Specific Safety Precautions for Use

- Do not look directly at the sun through the sight, as this can cause serious eye injury.
- Ensure that the sight is securely mounted to your firearm before use.
- Avoid exposing the sight to extreme temperatures or harsh environmental conditions.
- Use the sight only with compatible firearms and accessories.
- Do not attempt to disassemble or modify the sight, as this may compromise safety and performance.
- When adjusting the dot intensity, start with a lower setting to avoid distraction.

## Instructions for Installation and Usage

### Installation

#### 1. Mounting the Sight:

- Ensure the firearm is unloaded before installation.
- Align the sight with the Picatinny rail on your firearm.
- Securely fasten the sight using the provided T15 Torx driver.

#### 2. Battery Installation:

- Locate the top battery compartment.
- Open the compartment and insert the CR1632 battery, ensuring correct polarity.
- Close the compartment securely.

### Usage

#### • Powering On/Off:

- To turn on the sight, press the power button located on the left side.
- To turn off the sight, press the power button again.

#### • Adjusting Dot Intensity:

- Use the intensity control buttons on the left side to adjust the brightness of the dot.

- Start with a lower intensity in lowlight conditions.

- **Windage and Elevation Adjustments:**

- Use the flush 1 MOA adjustments for windage and elevation.
- Make small adjustments and test the sight alignment after each change.

- **Battery Maintenance:**

- Regularly check the battery level and replace it as needed to ensure optimal performance.
- Always have a spare CR1632 battery on hand.

## **Disposal Instructions**

- Dispose of the sight and its components in accordance with local regulations.
- Do not dispose of batteries in regular household waste. Follow local guidelines for battery recycling or disposal.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or support, please reach out to the appropriate EU contact point for assistance. Ensure you have the product model and serial number ready for reference.

Thank you for your attention to these safety guidelines. Your safety and the safe operation of the VORTEX OPTICS Venom Red Dot are of utmost importance. Enjoy your shooting experience responsibly!
