

Razor HD Binocular - VORTEX OPTICS Razor HD 12x50 Binocular

[Optics & Mounting](#) > [Binoculars & Accessories](#) > [Binoculars](#)

Built with a combination of hand-selected prisms with premium high-density glass, the Vortex Razor HD 12x50 Binoculars deliver unparalleled resolution and stunning, high-definition, true-color images. They are "roof prism" binoculars, a design that is both more rugged than traditional Porro prism binos and more compact - two qualities you want in binoculars need to carry around all day.

The Razor HD 12x50's lenses feature Vortex's proprietary XR Plus full multi-coatings that deliver the highest level of light transmission, with multiple anti-reflective coatings on all air-to-glass surfaces for maximum brightness. Multi-layer dielectric prism coatings ensure bright, clear, color-accurate images. A "Phase Correction" coating on the roof prism further enhances resolution and contrast. All coatings are applied using Vortex's cutting-edge Plasma Tech application process that gives unparalleled coating durability and performance.

Vortex Razor HD 12x50 binoculars aren't just about the Vortex glass. A Magnesium chassis is both lightweight and extremely strong (also won't corrode, either), and it's O-ring sealed to keep moisture, dust, and dirt out of the interior, while Argon gas purging prevents internal fogging in just about any external weather/temperature/humidity conditions. Thin but extremely tough rubber armor all around the exterior gives you a secure, non-slip hold on your Razor HDs, while also providing an extra layer of shock protection for the mechanism inside. With Vortex's hard-earned reputation for pushing the limits of optical performance, Razor HD 12x50 binoculars are in a class of their own. And maybe the only ones you'll need for your outdoor adventures.

Impressive 10' minimum focus distance

A 65° apparent viewing angle

Twist-up eyecups with multiple click-stop positions

ArmorTek exterior coating protects lenses from scratches, dirt & fingerprints

Exterior covered in non-slip rubber coating

VORTEX OPTICS Razor HD 12x50 Binoculars

Safety Instruction Guide

Introduction

Thank you for choosing the VORTEX OPTICS Razor HD 12x50 Binoculars. This guide provides essential safety information, usage instructions, and disposal guidelines to ensure that you enjoy your binoculars safely and effectively. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the binoculars are used only for their intended purpose.
- Keep the binoculars out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the binoculars for any signs of damage. Do not use if damaged.
- Avoid exposing the binoculars to extreme temperatures or humidity.
- Do not attempt to disassemble or repair the binoculars yourself.
- Use the binoculars in a safe environment, away from hazards such as moving vehicles or unstable surfaces.

Specific Safety Precautions for Use

- Do not look directly at the sun through the binoculars, as this can cause serious eye damage.
- When using the binoculars, ensure that the area is welllit and free of obstacles to prevent falls or injuries.
- Use the twistup eyecups properly to ensure comfort and prevent strain during prolonged use.
- Avoid using the binoculars in wet conditions unless they are specifically rated for such use.
- Clean the lenses with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

Instructions for Installation and Usage

1. Initial Setup

- Remove the binoculars from the packaging and inspect for any visible damage.
- Familiarize yourself with the components of the binoculars, including the eyecups, focus wheel, and objective lenses.

2. Adjusting the Eyecups

- Twist the eyecups up or down to suit your comfort level and vision needs.

3. Focusing the Binoculars

- Look through the binoculars and use the focus wheel to adjust the clarity of the image.
- Adjust the right eyepiece for individual visual acuity if needed.

4. Using the Binoculars

- Hold the binoculars securely with both hands.
- Aim at the desired object and adjust the focus as necessary.
- Use the binoculars at a comfortable distance from your eyes to avoid strain.

5. Storing the Binoculars

- When not in use, store the binoculars in a dry place, preferably in a protective case to prevent scratches and damage.

Disposal Instructions

- Dispose of the binoculars in accordance with local regulations for electronic waste.
- Remove any batteries if applicable before disposal.
- Consider recycling options to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the VORTEX OPTICS Razor HD 12x50 Binoculars, please contact the designated EUbased contact point provided with your product.

By following these guidelines, you can ensure a safe and enjoyable experience with your VORTEX OPTICS Razor HD 12x50 Binoculars. Always prioritize safety and care when using optical equipment.
