

Summit SS-P Tripod

[Optics & Mounting](#) > [Spotting Scopes & Accessories](#) > [Spotting Scope Accessories](#)

The Vortex Summit SS-P-Tripod gives you a stable platform for your optics, but won't take up a lot of space in your pack. Lightweight and easy to deploy, the Vortex Summit SS-P-Tripod comes with three, five section anodized aluminum legs that let you go from 6.3" to 54.5" when fully extended.

The Vortex Summit SS-P-Tripod has a quick-release, three-way pan/tilt head with quick locking handle for firm, balanced support and a locking knob that controls the angle.

The Vortex Summit SS-P-Tripod uses twisting leg locks for variable height adjustments and minimal bulk. Rubber feet provide stable footing, even on rain slick surfaces.

VORTEX OPTICS Summit SSP Tripod Safety Instructions

Introduction

Thank you for choosing the Vortex Summit SSP Tripod. This guide provides essential safety instructions and usage guidelines to ensure the safe and effective use of your tripod. Please read this manual carefully before using the product.

General Safety Guidelines

- Ensure that the tripod is fully assembled and all components are securely locked before use.
- Always inspect the tripod for any signs of wear or damage before each use.
- Use the tripod on stable and level surfaces to prevent tipping or instability.
- Keep the tripod away from children and pets to avoid accidental injury.
- Do not exceed the weight limit specified in the product specifications.
- Avoid using the tripod in extreme weather conditions, such as strong winds or heavy rain.
- If the tripod becomes unstable or wobbly during use, discontinue use immediately.

Specific Safety Precautions for Use

- **Weight Limit:** Ensure that the total weight of your optics does not exceed the maximum load capacity of the tripod.
- **Leg Locks:** Always ensure that the leg locks are securely tightened before adjusting the height or angle of the tripod.
- **Footing:** Use the rubber feet to provide a stable base. Avoid using the tripod on slippery or uneven surfaces.
- **Pan/Tilt Head:** When adjusting the pan/tilt head, do so gently to avoid sudden movements that may cause the tripod to tip over.
- **Folding and Unfolding:** Be cautious when folding or unfolding the tripod. Keep hands clear of moving parts to prevent pinching or injury.

Instructions for Installation and Usage

1. Unfolding the Tripod:

- Gently pull apart the legs of the tripod until they are fully extended.
- Ensure that each leg is locked in place using the twisting leg locks.

2. Adjusting the Height:

- To adjust the height, unlock the leg locks and slide the legs to the desired height.
- Once at the desired height, securely lock the leg locks.

3. Setting Up the Pan/Tilt Head:

- Attach your optics to the quickrelease plate on the pan/tilt head.
- Securely tighten the quickrelease mechanism to prevent any movement of the optics.

4. Adjusting the Angle:

- Use the locking knob to control the angle of the optics.
- Ensure that the angle is securely locked before use.

5. Folding the Tripod:

- To fold the tripod, unlock the leg locks and gently collapse the legs.
- Ensure that the tripod is completely folded before storing.

Disposal Instructions

- Dispose of the tripod in accordance with local regulations.
- If the tripod is damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the tripod in regular household waste.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the product's packaging or visit the manufacturer's website. Ensure you have the product's model number and details ready when seeking assistance.

Conclusion

Following these safety instructions will help ensure a safe and enjoyable experience with your Vortex Summit SSP Tripod. Always prioritize safety and proper usage to maximize the lifespan and performance of your equipment. Thank you for choosing Vortex Optics.
