Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading machine. Please read this document carefully before using the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for the safe use of the Dillon XL750.
- Ensure the reloading machine is placed on a stable and secure surface.
- Keep the reloading area clean and free from clutter.
- Use protective eyewear when operating the machine to safeguard against potential debris.
- Store all components, including ammunition and reloading materials, out of reach of children.
- Do not operate the machine under the influence of drugs or alcohol.
- Regularly inspect the machine for any signs of wear or damage before use.
- If you notice any unusual sounds or malfunctions, stop using the machine immediately and seek assistance.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The reloading machine involves moving parts that can cause injury. Keep hands and loose clothing away from moving components.
 - Powder and primers used in reloading can be hazardous. Handle them with care and follow all safety data sheets (SDS) provided by the manufacturers.
- **Age Restrictions:**
 - This machine is intended for use by adults only. Ensure that individuals under 18 years of age do not operate the machine without adult supervision.
- **Emergency Procedures:**
 - In the event of an accident, follow local emergency procedures and seek medical attention if necessary.

Instructions for Installation and Usage

1. Installation:

- Place the Dillon XL750 on a sturdy workbench or table that can support its weight and the force applied during reloading.
- Ensure the machine is level and securely fastened to the surface to prevent tipping or movement during operation.

2. Setup:

- Attach the optional electric case feeder if desired, following the manufacturer's instructions.
- Install the appropriate die set, which must be ordered separately, according to the cartridge type you intend to reload.

3. Loading Process:

- Before starting, ensure all components are clean and free from debris.

- Follow the reloading instructions specific to the cartridge you are using, ensuring proper measurements and settings.
- Maintain a consistent workflow and avoid distractions while operating the machine.

4. PostUse:

- After reloading, clean the machine to prevent powder residue buildup.
- Store the machine and all reloading components in a secure location.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Follow safety guidelines for disposing of hazardous materials, such as primers and powders, to prevent environmental contamination.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you will help ensure a safe and enjoyable reloading experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and stay informed about best practices in reloading.
