## Safety Instructions

### Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions to ensure safe and effective use of the machine. Please read and understand these instructions carefully before operating the machine.

### General Safety Guidelines

- Ensure that the machine is used in a wellventilated area away from flammable materials.
- Always wear appropriate personal protective equipment, including safety glasses and hearing protection.
- Keep the work area clean and organized to prevent accidents.
- Do not operate the machine if you are tired, under the influence of medications, or intoxicated.
- Keep all tools and accessories out of reach of children and unauthorized users.
- Regularly inspect the machine for any signs of wear or damage before use.
- Follow all local laws and regulations regarding reloading and ammunition.

### Specific Safety Precautions for Use

- Always read the user manual before operating the Dillon XL750.
- Ensure that the machine is securely mounted to a stable work surface.
- Use only the recommended die set for your reloading needs, and order it separately as needed.
- Do not exceed the machine's loading capacity or use it for purposes other than intended.
- Be cautious when handling powder and primers; store them in a cool, dry place and away from direct sunlight.
- Do not leave the machine unattended while in operation.
- In case of a malfunction, stop using the machine immediately and consult the troubleshooting section of the user manual.

### Instructions for Installation and Usage

#### 1. Installation:

- Choose a sturdy, level surface for mounting the Dillon XL750.
- Secure the machine using the appropriate mounting hardware.
- If using the optional electric case feeder, follow the manufacturer's instructions for installation.

#### 2. Setup:

- Assemble the die set according to the user manual.
- Adjust the machine settings as per the type of cartridge you are reloading.
- Ensure that all components are properly aligned and secured before starting.

#### 3. Operation:

- Load the machine with the appropriate components (cases, primers, powder, and bullets).
- Follow the reloading process as outlined in the user manual.
- Monitor the reloading process closely to ensure everything operates smoothly.
- After reloading, inspect the ammunition for any defects before storage or use.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of hazardous materials in regular waste. Contact your local waste management facility for guidance on proper disposal methods.
- If the machine is no longer in use, consider recycling it or donating it to a local shooting club or organization.

## **Contact Information for Further Support**

For any safety inquiries or support regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or contact your local distributor.

## **Conclusion**

By following these safety instructions, you can ensure a safe and efficient reloading experience with the Dillon XL750. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these guidelines.
